Hisham Gnedy is doctoral student, pursuing his Ph.D. in Engineering while working with the Center for Intermodal Freight Transportation Studies (CIFTS) at the Intermodal Freight Transportation Institute – U of M. Hisham received his Master's of Science in Civil Engineering (08') from the University of Memphis with a concentration in transportation engineering and graduated with a Bachelor's of Science in Architectural Engineering from Assiut University, Egypt (02'). He has been elected a vice-president for the University of Memphis ITE (Institute of Transportation Engineers) student chapter for school year 2010-2011. Late 2010, he joined Cummins Inc., a corporation of complementary business units that design, manufacture, distribute and service engines and related technologies, as a lean intern working on continuous improvement projects.

Hisham lives in Memphis since he moved to the United States in summer 2006 with his wife, Hadir, and their two sons, Ziad (7) and Mazen (4). His hobbies include swimming, biking, grilling and spending time with his family.
