

The University Of Memphis
Department Of Chemistry
Announces a Seminar Entitled

“Proteomics approaches to probe the
selectivity and consequences of protein
damage by reactive electrophiles”

To be presented by

Daniel C. Liebler, Ph.D.

Director, Ayers Institute for Precancer Detection and Diagnosis
Director, Proteomics Laboratory, Mass Spectrometry Research Center
Professor of Biochemistry, Pharmacology and Biomedical Informatics
Vanderbilt University School of Medicine

Smith Chemistry Building
Room 102

February 2, 2007
Refreshments and Mixer 3-3:30PM
Seminar 3:30-4:30PM

All undergraduate and graduate students,
postdocs and interested faculty are
encouraged to attend.
