

THE UNIVERSITY OF
MEMPHIS

SUMMER MATH ACADEMY

June 20th thru July 3rd

Funded by a special grant from the Tennessee Board of Regents, the University of Memphis will offer a summer high school Math Academy for rising 10th- and 11th-graders.

The goal of the Academy is to help high school students envision themselves attending college and encourage them to explore the field of mathematics. The curriculum is designed to demystify algebra and to generate positive attitudes toward mathematics. The instructors for the academy are Angiline Powell from ICL and Angela Grant from **Mathematical Sciences**.

The program is directed by Celia Anderson and Shawn Boyd with assistance from Jodi Higgs and Kyla Jones.
