

A-TEAM Schedule, Spring 2010

Time: Fridays at 12:30 (bring a brownbag lunch if you'd like)

Location: Ed Psych Lab, Browning Hall 207

Semester Goals: Have students create and implement original quantitative and qualitative studies. Results should be publishable. This is a good opportunity for students to complete residency projects or pilot studies. Age and grade levels are open to meet your research interests.

1/29: Introduction to the A-TEAM semester agenda

Come prepared with research question and methodology for your study.

2/5: Come prepared by reading through the current literature. Identify the articles that will help you develop your literature review. Know how your study will expand the literature.

2/12: Come prepared by having your surveys, measures, or sources of data collection put Together and be knowledgeable enough to discuss your methodology and ask pertinent methodological questions.

2/19: Have IRB forms completed and ready to submit.

2/26: Report your research progress, and

Dr. Mueller, Dr. Jones, and Dr. Winsor provide overview of APA writing format for introduction and literature review sections.

3/5: Report your research progress, and Dr. Mueller, Dr. Jones, and Dr. Winsor provide overview of APA writing format for methods and results sections

3/12: Spring break

3/19: Data collection, report your research progress, and Dr. Mueller, Dr. Jones, and Dr. Winsor provide overview of writing discussion section

3/26: Data collection, report your research progress, and Dr. Mueller, Dr. Jones, and Dr. Winsor provide overview of setting up data entry.

4/2: No A-TEAM meeting. Continue working on data entry and writing.

4/9: Data analysis work day (group and individual).

4/16: Data analysis work day (group and individual).

4/23: Share results with the group.
