

## Parent Orientation Meeting Summary

1. Please make sure that you verify your e-mail with [knfreman@memphis.edu](mailto:knfreman@memphis.edu) at your earliest convenience. We would hate for any parent or camper to miss any important information.
2. Please make sure that you have submitted all documentation, if you have not already done so. We will also be accepting them on the first day of camp, however, it would be best to provide these forms ahead of time.
3. If any camper has any dietary needs or health conditions that we should be aware of, you should contact us immediately with these details.
4. GenCyber starts at 8:30 AM and ends at 4:30 PM. The Pick-Up/Drop-Off Area will be in front of the FedEx Institute of Technology on Innovation Drive. There will always be someone from the GenCyber Team available at the Pick-Up/Drop-Off Area.
5. There is no free parking available on the University of Memphis campus. The closest parking area to the Pick-Up/Drop-Off Area is the parking garage which is located across the street from the FedEx Institute of Technology. Please be prepared to pay \$4 to park in that parking garage.
6. We would prefer that students not bring their cell phones, however, if there is a reason as to why they would need their cell phones, we request that that information be made known to us as soon as possible. We will be collecting phones and keeping them until break, lunch and dismissal time.
7. We would prefer that students not bring food with them, since food cannot be brought into any of the Labs we will be using. We will provide a light breakfast alongside snacks and lunch.

8. Every camper should complete the Pre-Survey (found in the agenda) before the first day of camp starts. We have no way of tracking exactly who took the survey, so if your child has completed the survey, and you receive a reminder e-mail asking you to complete the survey, please disregard.
9. The rooms that we'll be using tend to run a little cold, so it might be best for the campers to bring a jacket with them
10. It would be best if all campers brought their own set of ear buds with them to camp, since some of the activities require them.
