COMP 3150 Programming in C/C++
Fall Term, 2016   TR 7:10 pm – 8:35 pm   233 Dunn Hall
Daniel C. Sweeney, Instructor

Instructor Contact Information:
E-mail:   dsweeney@memphis.edu
Office hours:   by appointment

Course Objectives:
• Be proficient in using the basic constructs of C/C++ to develop computer programs.
• Be able to apply the computer programming techniques in C/C++ to solve practical problems.
• Learn the best practices which surround C/C++ programming

Course Resources:
All course resources are available from the course home page which is located at
https://umdrive.memphis.edu/dsweeney/public/162_3150/

Evaluation:
Your grade for the course will be based on your score on 2 exams (worth 30 points each) and 4 homework
assignments (worth 10 points each), for a total of 100 points.

Grading Scale:
Typical grading is an A for a total point score greater than 92, an A- for a score of 90 or 91, a B+ for a
score of 88 or 89, a B for a score between 82 and 88 inclusive, etc.

Course Policies:
Class attendance is optional, but students are responsible for all class materials and assignments.

Plagiarism/Cheating Policy:
Plagiarism or cheating behavior in any form is unethical and detrimental to proper education and
will not be tolerated. All work submitted by a student (projects, programming assignments, lab
assignments, quizzes, tests, etc.) is expected to be a student's own work. The plagiarism is
incurred when any part of anybody else's work is passed as your own (no proper credit is listed to
the sources in your own work) so the reader is led to believe it is therefore your own effort.
Students are allowed and encouraged to discuss with each other and look up resources in the
literature (including the internet) on their assignments, but appropriate references must be
included for the materials consulted, and appropriate citations made when the material is taken
verbatim.

If plagiarism or cheating occurs, the student will receive a failing grade on the assignment and (at
the instructor’s discretion) a failing grade in the course. The course instructor may also decide to
forward the incident to the University Judicial Affairs Office for further disciplinary action. For
further information on University of Memphis code of student conduct and academic discipline
procedures, please refer to: http://www.people.memphis.edu/~jaffairs/
