K. Weddle-West explained that the School of Nursing is seeking to change the name of the on-ground MSN “Advanced Practice” concentration to “Family Nurse Practitioner.” This is mainly due to the fact the RODP MSN program concentration name was recently changed from “Advanced Practice” to “Family Nurse Practitioner.”

After addressing all of the agenda items K. Weddle-West provided the council with an update on our search for a solution to the problem of health insurance for graduate assistants. Provost Rudd looked into the issue and found that there are full-time employees at the university that do not have health insurance. Therefore we cannot put part-time graduate assistants ahead of full-time employees. The Graduate School is working the Graduate Student Association to help students know that we are cognizant of the issue and are working on finding a solution. This is not a dead issue; rather it will be a dynamic and ongoing discussion.

There being no further business to discuss the meeting was adjourned at 3:00 p.m.
