

ALUMNI PROFILE

Richard C. Bursi President & CEO of OGCB, INC.

Herff College of Engineering Experience

“The Herff College of Engineering gave me everything I needed to succeed in consulting engineering. My instructors and advisors were excellent. The Herff College is well represented in the local engineering community. I enjoy coming in contact with fellow graduates through work or alumni events. The success that University of Memphis graduates have achieved, and the variety of careers in which our graduates work, is impressive. Since my college days, I have realized that the Herff College of Engineering and the University of Memphis are extremely valuable assets to our community.”
