Cute Cassie

By: Mansour

It was Friday and it was raining cats and dogs. We were in the FBC building. We wanted to go to our grammar class, but almost all of us we didn't have an umbrella. So some of us were walking fast to not get soaked, but we have a cute girl she is very good natured and she has a positive attitude. She got soaked because she didn't have an umbrella and she took off her shoes when we were walking. When we got to the class she was really soaked and had

to wring out her jacket. While she was wringing out her jacket I took a video and pictures of her. After she wore her shoes and jacket she got in the class and she was embarrassed because everyone who was in class saw the video and the picture. So she asked me to delete them, but I refused and I said "I'm going to broadcast them". At the end she gave up because the teacher and the student were enthusiastic to see the article with the pictures.

! The Major Leagues

By: Hidetaka

I thought that the major leagues were one of the most exciting sports entertainments until I went to see it. I went to a game of the Oakland team. So before I went to the game, I bought an Oakland baseball cap to cheer the team with supporters. I went to the stadium by train but on the inside of the train, there were many people who were wearing baseball caps. As I saw them, I became in high spirits. All of them have put on not only the cap, but uniforms. I should have bought a uniform, too. Anyway, almost of all people associate the major leagues with hot dogs and coke. So before the game started, I bought them. Then I put them on my seat and waited for the game to start. Of course, there were many supporters near my seat. At last, the game started, they were very excited. Especially, it was the most exciting when the players hit a homerun like a festival. We hugged and did high-fives with each other. But after 6 innings, their high spirit was getting normal gradually because they supposed the team that we were cheering would win overwhelmingly. Also, the competitors looked like they were giving up so their game wasn't exciting. Then I realized major leagues are not an exciting thing, but the supporters make it fun. My favorite entertainment was the supporters. Major league is the second of my favorite things.

Fast Food

By: Jackie

Fast food is the food that can be prepared and served very quickly. While any meal with low preparation time can be considered to be fast food, typically the food sold in a restaurant or store with low quality preparation and served to the customer in packaged form for take out. Let's discuss the advantages and the disadvantage of fast food. The advantages of eating fast food are easy, and as long as you can resist the tactics they use to encourage you to overeat, such as meal deals, super sizing and two-for-one offers. You can practice portion control, depending on what size you want. Also you can walk in, order and eat. You won't have delayed meals or waiting at the table for food, for the people who are busy, it is more convenient to eat fast food. And then fast food is also cheaper than the other foods. Now we talk about the disadvantages, because fast food is cheap so a lot of people may be encouraged to overeat. High fat ingredients are too plentiful, such as cheese, fried chicken or fish, bacon, French fries, etc. Also vegetables can be difficult to find in fast food. Aside from small salads, few leaves of lettuce on a sandwich or, worse, vegetables that are fried, such as potatoes or onion rings. Fruit is also not present, they only provide juices or between the crusts of baked or fried pies. Nowadays, people are more focused on their health, so fast food is being replaced by healthy food, such as salads and Asian food.

Ramen

By: Sukhwan

Ramen is one of the most popular foods in the world. Here, I'll tell you about Korean ramen. Generally, in Korea, ramen means instant ramen. Many Korean people like this and have eaten it many times. One of reasons is, it is easy to cook. Just boil water, put in the seasoning pack and noodles, and it's ready to eat. It's very simple and fast, so people who are annoyed with cooking love it. If you want to make it special, you can add anything you want such as onions, eggs, sea food, etc. you can cook your own flavor of ramen, but be careful. Too many things will lead ramen to a horrible taste. Remember everything should be moderate.

Actually, I usually enjoy cooking ramen for my own taste. I think ramen is not good food for health, so if I add some things, which are good for people such as vegetables, etc, it makes ramen a more healthy food. Some months past, I was really hungry and tired, but there were no food except ramen. Usually, Koreans eat rice with ramen soup after finishing noodles, but there was no rice, either. So, I thought so many things, an egg, sea food, onions, dumplings, sliced rice cake, tuna, etc, I don't remember everything, to add in ramen. Finally, I got big ramen, but I should have reduced some of the things which I added. I can't explain the taste of failed ramen. However, I ate all of them, because at that time, I didn't care about the taste. I just needed food. Anyway I got full. Again, remember everything should be moderate.

Kim-chi Fried Rice

By: Jonghyun Choi

Today, I'm going to tell you how to cook Kim-chi fried rice, which is my favorite Korean food. Before cooking, we need some ingredients such as Kim-chi, rice, Ko-chu-jang (Korean spicy source), a little bit of sugar, tuna and olive oil. First, cut some Kim-chi into pieces. Second, fry pieces of Kim-chi with olive oil for about 4 minutes. Third, put in one spoonful of Ko-chu-jang and a little bit of sugar. If you want it to be spicier, put in one more spoonful of Ko-chu-jang. Then put in a can of tuna and continue to fry for about 5 minutes. Finally, add some steamed rice and mix well. And enjoy the Kim-chi fried rice. As many people know, Kim-chi is very good for your health and delicious, so I hope that you will try to cook the Kim-chi fried rice even though it sounds strange and difficult. Also if you have anything that you don't understand about making Kim-chi fried rice, just let me know. I will help you. Thank you.

How to Get an IMAX Ticket for UoM Students

By: Moo

Last Monday in the newspaper class, my teacher, Queen Becky, took all of us to the IMAX theatre at the Pink Palace Museum. We watched the Grand Canyon movie. It took about 45 minutes. After the movie finished, she asked us to write something about the movie. Unfortunately, nobody could remember the movie because everybody including me was sleeping during the movie. However, I tried to think about another topic that was related to the movie. Then, I came up with the idea that I should write about the way or method to get an IMAX ticket for UoM students.

Usually, the IMAX ticket costs \$8 per ticket. However, if you are a student at The University of Memphis, you should buy the IMAX ticket at the university before you go to the theatre.

The ticket price will be only \$2 per ticket. If you want to buy such a ticket, you have to follow this process. First, you go to Wilder Tower and tell the cashier that you want to buy an IMAX ticket. Then, you pay her \$2 and she will give the receipt to you. Second, you bring the

receipt to the student center at the Panhellenic Building. They will give you a ticket but it isn't a real ticket, which is acceptable at the theatre. Last, you show the ticket issued by the student center to the clerk at the theatre. After that, he will give you the real ticket. You just show this ticket when you walk into the theatre. Then, you will enjoy the movie with an acceptable price. If you follow three steps above, you will never pay more than \$2 to watch the movie at the IMAX theatre.
