

Academic Advising

Students meet with their MSN specialty director or coordinator via phone or in-person to create a plan of study. First semester course permits are issued after verification of all *Required Nursing Data* except urine drug screen results. Mid-way through the first semester and each semester afterwards, students work with their specialty coordinator or assigned advisor to prepare for the next semester's courses and discuss challenges associated with being a MSN student.

The Advising Schedule is as follows:

- Oct 1 – Nov 15 for Spring Semester Courses
- Mar 1 – Apr 15 for Summer Semester Courses
- Mar 1 – Jul 15 for Fall Semester Courses
