Dreamers. Thinkers. Doers.
We get that. You’re thinking about your future, figuring out what to do next. Deciding which college to attend is probably the biggest decision you’ve ever made. There are so many choices. The clock is ticking, and you’re beginning to feel anxious. You’re getting excited, too, because college is the next big step in your life, the one that matters the most.

Your life is about to change dramatically.
We put students first at the University of Memphis. After all, that’s why we were founded in 1912. We will provide you with the best education so you can fulfill your dreams. We’ll also help you build memories and friendships that last a lifetime.

**COLLEGE IS ABOUT MORE THAN JUST GOING TO CLASS.**

It’s about meeting the people who will change your life forever...your professors, your classmates, your roommate. Sure, you’ll do a lot of things while you’re here. You’ll participate in some great research activities, maybe study abroad, perhaps find an internship that leads to an amazing job. Along the way, you’ll also have a lot of fun. But it’s not what you do here that matters most. It’s who you’ll become.
You probably hang out with some pretty interesting people already. At the University of Memphis, you'll get to mingle with students from 47 states and 99 foreign countries. You'll be able to sit next to someone whose culture and ideologies may differ from yours, allowing you to further expand your circle of understanding.

You'll be taught by professors whose academic journeys began at places like Yale, Columbia, Duke, Northwestern and Purdue. They are the best and brightest in their fields. People who excel not only in the classroom, but whose groundbreaking research is changing the way we all live.

You'll be invited to hear nationally renowned speakers, attend great concerts and cheer on our national powerhouse basketball team. You'll meet the most amazing people here.
Right now, your day is planned by others. What you do is dictated by your class schedule and your extracurricular activities, and maybe even your after-school job. All of that changes once you get to college.

You’ll manage your own time. No one will force you to get out of bed and go to class. You’ll have to figure out when to study and when to hang out. You’ll be on your own for the first time in your life, and it’s up to you to figure out how to manage all of that free time.

It’s not as easy as it sounds, but there are people here to help you. Because UMatter to us, we want you to succeed—in the classroom, in your personal endeavors and once you graduate. We have several programs on campus that do things like teach you study skills, offer career counseling and tutor you for that difficult class.

Laura McDaniel
Collierville, Tennessee
Major: Biology/Pre-med

It’s okay if you don’t have a laptop. We have more than 50 computer labs and over 1,100 work stations on campus, including several that are open 24/7.

We’ve started a lot of companies—like FedEx, Holiday Inn, St. Jude Children’s Research Hospital and Welcome Wagon. We gave birth to a lot of firsts—the first self-service grocery store, the first hotel chain, the first outlet mall, the first overnight package delivery company. Our native sons have founded everything from the Hard Rock Café and the House of Blues, to Coppertone and Dr. Scholl’s.

OUR CITY EMBODIES THE U OF M’S MOTTO—DREAMERS. THINKERS. DOERS.
NOW LET US GIVE YOU A CLEARER PICTURE
OF WHO WE ARE AS A UNIVERSITY.

Laura McDaniel
Collierville, Tennessee
Major: Biology/Pre-med
Founded: 1912 (We’re almost 100 years old!)  
Location: 217-acre main campus is in the heart of residential East Memphis  
Enrollment: 15,813 undergraduates and 4,401 graduate/professional students  
Freshman Class: Approximately 2,000  
Degree Programs: Over 250 areas of study (including graduate programs)  
Faculty: 938 full-time faculty  
Student-Faculty Ratio: 14:1  
Academic Calendar: Semester system (fall, spring and two summer sessions)  
Where We’re From: 47 states; 99 countries  
Student Life: Over 150 student organizations, including 23 sororities and fraternities  
Tuition: $6128 (in-state, annually); $17,714 (out-of-state, annually) with no assistance  
Financial Aid: Over 80% receive more than $150 million in scholarships and financial aid  
School Colors: Blue and gray  
School Mascot: Bengal Tiger  

The U of M by the Numbers  
The University of Memphis has several nationally ranked programs.  
• Our audiology and speech-language pathology programs are both ranked in the top 15 graduate programs nationally by US News and World Report.  
• Based on low tuition and high passage rates on the Tennessee Bar exam, our Cecil C. Humphreys School of Law ranked fifth nationwide in preLaw magazine’s “best value” back-to-school issue.  
• Our graduate program in discrete mathematics and combinatorics is ranked in the top 15 programs nationally by US News and World Report.  
• Our master’s degree program in rehabilitation counseling is ranked in the top 20 nationally by US News and World Report.

Just a few more bragging points—  
• Our Cecil C. Humphreys School of Law placed second, in a split decision with Harvard, in the American Bar Association National Appellate Advocacy Competition, besting 175 other teams.  
• U of M faculty include Emmy, Grammy and Peabody award winners.  
• Our FedEx Center for Supply Chain Management is the only center in the U.S. devoted to industrial/academic collaboration for research for cycle time issues.  
• The Systems Testing Excellence Program (STEP) at the FedEx Institute of Technology is the only one of its kind in the U.S. that emphasizes the quality of software. It has the potential to make us the largest software-testing organization in the nation.  
• The University of Memphis has more Chairs of Excellence (25 to be exact) than any other university in Tennessee.
What will you major in?

You’ll make lots of choices as a college student. The first will be to choose a major. Think about where your passion lies and choose an area of study that matches it. With more than 250 areas to select from, we have a program of study that will challenge and prepare you for your future.

And here’s a little secret: If you can’t find the major of your dreams on our list, the University College will work with you to create a curriculum and a degree that’s tailored just for you.

UNDERGRADUATE ACADEMIC MAJORS

Degrees are in parentheses. Concentrations are listed beneath the majors.

COLLEGE OF ARTS AND SCIENCES

American and Latin American Studies (BA)
Anthropology (BA)
Biology (BS)
Chemistry (BS/BSCh)
Biochemistry

BFA Bachelor of Fine Arts
BM Bachelor of Music
BLS Bachelor of Leadership Studies
BS Bachelor of Science
BSEd Bachelor of Science, Education
BSET Bachelor of Science, Engineering Technology
BSME Bachelor of Science, Mechanical Engineering
BSN Bachelor of Science, Nursing
Once you apply and are accepted, you will attend New Student Orientation and Frosh Camp the summer before your freshman year. These allow you to meet other new students and find common interests.

Besides the Honors Program, there are many other ways to engage with students and faculty once you are on campus. You can apply for our Emerging Leaders program, which will fine-tune your leadership skills. Then there is Fresh Connections, a program designed just for freshmen, which uses a common thread to connect different disciplines into a learning community. There are also several living-learning communities on campus where students who have the same interests or the same major live and study together.

We have more than 150 student organizations that can connect you with like-minded students. These range from Student Government and the Student Activities Council, to Greek organizations and religious and community service groups. There is truly something for everyone.

You can find out about all of our first-year programs by visiting www.memphis.edu/vsa/firstyear.htm.

Are you interested in understanding the world around you—intellectually, politically and culturally?
Are you introspective?
Do you want to engage with faculty and other students in discussions that answer fundamental questions?
Do you have a wide range of interests?
Are you thinking about graduate study or professional school after graduation?

If you answered “yes” to at least three of these questions, the Honors Program might be a good choice for you.

More than 20 percent of our freshman class is enrolled in the Honors Program, now in its 37th year. Designed for academically ambitious and talented students, it combines the best of a small liberal arts education with the vast opportunities afforded by a large, nationally-recognized research university. Incoming Honors freshmen in fall 2008 had an average ACT score of 28 and an average high school GPA of 3.85.

Honors students benefit from early registration, smaller classes, social/cultural activities, Honors floors in residence halls, designated study lounges and computer labs, and national and international exchange opportunities.

While all of our 1400+ Honors students have excellent credentials, several have recently been awarded the prestigious Truman Scholarship, Fulbright Scholarship, Goldwater Scholarship, Rotary Ambassadorial, the UNCF/Meck Fellowship, the Phi Kappa Phi Fellowship, and the USA Today All-American Team Honorable Mention.

We have more than 150 student organizations that can connect you with like-minded students. These range from Student Government and the Student Activities Council, to Greek organizations and religious and community service groups. There is truly something for everyone.

You can find out about all of our first-year programs by visiting www.memphis.edu/vsa/firstyear.htm.

Up ‘til Dawn, a student-run philanthropic program that began at the U of M, has raised more than $810,000 for St. Jude Children’s Research Hospital since it began in 1998-99. It’s now on 250 campuses nationwide.

**Terrance Stevenson**
**Little Rock, Arkansas**
**Major:** International Studies and Political Science

**Thuy Vi Vo**
**Memphis, Tennessee**
**Major:** Marketing/Logistics
We look for students who have strong academic preparation and potential to succeed. The U of M utilizes a combination of your SAT/ACT scores and your cumulative high school GPA to give us an index score. You may want to consider taking these tests more than once to raise your score. Our entering class in fall 2008 had an average ACT score of 22 and an average GPA of 3.22. You must take either the ACT or the SAT, and you must meet the minimum academic requirements outlined below. We do not require an essay for admission.

Minimum academic requirements include:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4 units</td>
</tr>
<tr>
<td>Math</td>
<td>3 units</td>
</tr>
<tr>
<td>History</td>
<td>3 units</td>
</tr>
<tr>
<td>Science</td>
<td>2 units</td>
</tr>
<tr>
<td>Foreign Language</td>
<td>2 units</td>
</tr>
<tr>
<td>Art</td>
<td>1 unit</td>
</tr>
</tbody>
</table>

Total: 15 units

Transfer students and adult (non-traditional) students should contact the Admissions office at 901.678.2111 or 800.669.2678 for admissions requirements.

Those interested can apply for one of our study abroad programs. Our students travel to 45 countries and 200 study sites. Each fall, we host a Study Abroad Fair so you can get more information on the wide range of opportunities to study in another country. Studying abroad allows you not only to experience other cultures and gain new knowledge, but also to develop more independence and confidence.

We offer short-term, semester and yearly programs. Scholarships and financial aid are available to help students cover the costs.

To find out how you can study abroad, visit www.studyabroad.memphis.edu.

Enjoy Studying Abroad
In the 2009-10 school year, we’ll be adding two really great new buildings to our campus. The first to open will be our new University Center. Not only will it have a theatre, a computer lab, student leadership offices, a restaurant and a food court, but there will be plenty of places for you and your friends to just hang out or study.

Our new residence hall opens that year too, and it will be the place to live on campus. It will join the other seven residence complexes that house undergraduate students on campus.

**WHERE WILL UMingle?**

In the 2009-10 school year, we’ll be adding two really great new buildings to our campus. The first to open will be our new University Center. Not only will it have a theatre, a computer lab, student leadership offices, a restaurant and a food court, but there will be plenty of places for you and your friends to just hang out or study.

Our new residence hall opens that year too, and it will be the place to live on campus. It will join the other seven residence complexes that house undergraduate students on campus.
Our alumni get called a lot of names. Like CEO, senator, congressman, actor, designer and author. We've educated some of the finest judges, engineers, educators, politicians, performers and entrepreneurs. You may have heard of a few of our alums—Fred Thompson, actor and former U.S. Senator; Dixie Carter and William Sanderson, actors; and Eric Jerome Dickey and Johanna Edwards, authors.

You've never heard of most of our alumni, but that doesn't mean you don't know them. You know their companies—FedEx, Coca-Cola, The New York Times, Rolling Stone and Ford, just to name a few.

**YOU CAN MAKE A NAME FOR YOURSELF, TOO. IT ALL STARTS HERE.**

Where's our spirit, you ask? Home to more than 330 student athletes, the U of M possesses a Tiger pride that is absolutely contagious. If you love the roar of the crowd and a warm hot dog, you'll find yourself right at home with the foam-fingered, body-painted fans who cheer the Tigers to victory.

A Division I school, we're part of one of the largest conferences in the nation, Conference USA, a member of the National Collegiate Athletic Association (NCAA). Our football team plays in the 62,380-seat Liberty Bowl Memorial Stadium, and we've played in five bowl games over the last six years.

Tiger basketball is played downtown in the FedExForum, which boasts 18,400 seats. We don't mean to brag, but we did go to the National Championship game in 2008—our third trip to the Final Four—and we've made it to the Elite Eight six times. We hold the NCAA record for number of wins in a single season (38 in 2007-08). So, yeah, we're good and we like to rock FedExForum.

Speaking of national championships, our pom pom squad is a 12-time national champion.

But there are not all the sports we offer. On the men’s side, we have baseball, cross country, golf, track and field, tennis, soccer and rifle. For the ladies, we have Lady Tiger basketball, which scores in the Elma Roane Fieldhouse on campus. Our female athletes also participate in cross country, golf, track and field, tennis, rifle, soccer, softball and volleyball.

If kickboxing, yoga, fencing, badminton or bowling is your thing, check out the free classes and intramural sports offered at our Student Recreation and Fitness Center. Personal training and massage therapy are also available to students.
You make the call. This is the first really big decision of your life. How do you know what's the right choice? You've taken the first step by reading this. Now schedule a visit to campus. Let us show you why we're the perfect place for you.

Hear about our campus from our own students. They lead tours each weekday at 1:30 p.m. and the first Saturday of every month at 9:30 a.m., excluding holidays. They'll tell it to you straight and answer all your questions.

So you make the call. Reserve your spot online at www.memphis.edu/campusvisit.htm, or call 800.669.2678 or 901.678.2169. It will only take 90 minutes of your time, but it could be the most important 90 minutes you'll ever spend.

For more information on applying and getting admitted to the University of Memphis, call 901.678.2169 or 800.669.2678.
