

OLD TOWN MILLINGTON VISION PLAN

Millington Community Court Services Department of Architecture

MILLINGTON

PROJECT COORDINATORS

Denise Sigler, Mamie Shannon, Tom Mason, Tim Michael & Holly Hendrix

NEIGHBORHOOD

Millington, downtown business core of north Memphis suburb

CHALLENGE

With the downsizing of the city's largest employer, Millington is facing a crossroad. While similar communities surrounding the city have experienced growth during recent years, Millington has actually had a slight population decline. High volume traffic through the outer edges of the city has also negatively impacted the commerce center in the historic Old Town Millington area.

IDEA

Create a community-driven vision plan that will:

- Set a course for the revitalization of a specific historical area
- Detail recommended projects that will engage Millington Community Court Services clients in meaningful work for the community

Architecture students facilitate discussions among community partners about the Old Town plan.

Community participants review the proposed vision plan for the Old Town area of Millington. Residents were given a chance to comment on the plans and provide input for their final design.

The Old Town plan includes an assessment of the current land use and structures in the targeted redevelopment area.
