RESEARCH SUMMARY

My research focuses on exploring the role of the faith-based community in addressing racial and ethnically-based health disparities in general and HIV awareness and prevention specifically, partnering with community-based organizations to understand HIV outreach, care, and utilization needs among vulnerable populations, and using the application of community-based participatory research (CBPR) approaches.

TEACHING NARRATIVE

My teaching philosophy is best characterized by my commitment to inclusiveness, accountability, and respect for diversity. I use current events to connect students with coursework, share examples from my research to apply concepts from the course, and accommodate diverse learning styles by using visual lectures, small and large group exercises, interactive discussions, and group projects. My prior teaching experiences and research training have provided me with the necessary skills to teach courses at the Graduate level. I am the sole instructor for Behavioral Intervention Development and Social and Behavioral Science Principles. Both of these courses have allowed me to strengthen my capacity to integrate community-based participatory research (CBPR) approaches into my teaching portfolio.

SUMMARY OF SERVICE ACTIVITIES

I recently became an Associate Editor of the premier journal founded to move community-based participatory approaches to research forward: *Progress in Community Health Partnerships*. I served as an ad hoc reviewer for multiple social and behavioral science journals including *American Journal of Public Health* and *Social Science and Medicine*. I also served as an ad hoc conference abstract reviewer for the 1) Diversity Track and the Environmental and Contextual Factors Track for the Annual Meeting of the

Society of Behavioral Medicine; and 2) the Special Interest Group on HIV/AIDS and Community-Based Public Health Caucus for the Annual American Public Health Association Meeting. I co-chaired the Society of Behavioral Medicine Racial, Ethnic and Cultural Factors in Health Track for three consecutive years. I am serving as a member of the St. Jude Children's Research Hospital's Connect to Protect Memphis HIV/AIDS Coalition, a local advocacy organization. I am an active member of The University of Memphis' Engaged Scholarship Committee. I served on the School of Public Health MPH admissions and curriculum committees. I serve on the Social and Behavioral Science (SBS) curriculum and doctoral admissions committees. Lastly, I was on the SBS faculty search committee for two consecutive years.
