

Connecting on a PC - Windows 7

1. From the (A) Network settings, (B) choose **um-guest** from the list of available wireless networks. Click **Connect**.

2. You will be asked to enter an (A) email address. This is a non-UofM affiliated email. (In this example, we used ttiger@tigermail.com.) (B) Check the I accept the terms of use box. (C) Click Register.

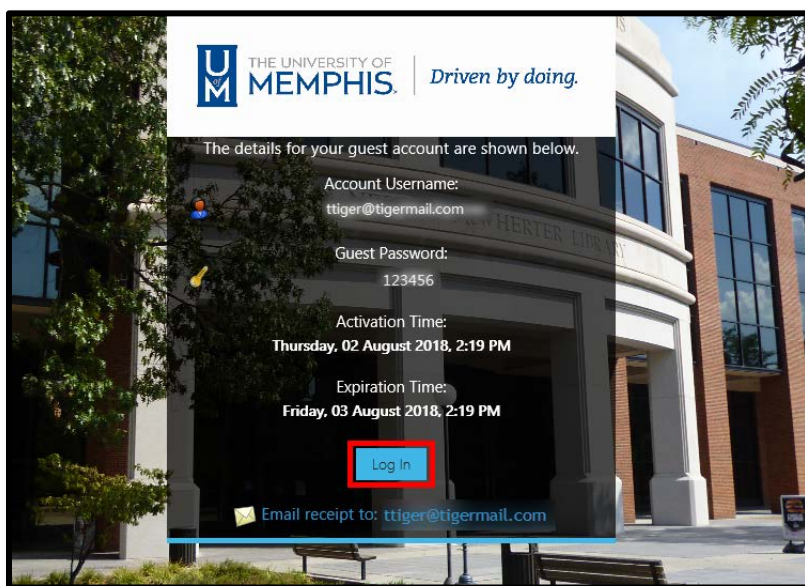

The screenshot shows the registration page for the University of Memphis Guest Network. At the top, the University of Memphis logo and tagline "Driven by doing." are visible. Below the logo, a welcome message reads: "Welcome to the University of Memphis Guest Network. Please complete the form below to gain access to the network." The form contains three main sections: 1. "Your email address:" with a text input field containing "ttiger@tigermail.com" and a red box labeled 'A' around it. 2. "Confirm:" with a checked checkbox for "I accept the terms of use" and a red box labeled 'B' around it. 3. A blue "Register" button with a red box labeled 'C' around it. At the bottom of the form, there is a link: "Already have an account? Sign In".

3. You will be given the details to your guest account including a guest password and expiration time for your account and password.

Note: If you click on your email at the bottom, an email receipt will be sent to the email address you entered confirming your guest account.

4. Click Log In.

The screenshot shows the account details page for the University of Memphis Guest Network. At the top, the University of Memphis logo and tagline "Driven by doing." are visible. Below the logo, a message reads: "The details for your guest account are shown below." The details listed are: "Account Username: ttiger@tigermail.com", "Guest Password: 123456", "Activation Time: Thursday, 02 August 2018, 2:19 PM", and "Expiration Time: Friday, 03 August 2018, 2:19 PM". At the bottom of the details section, there is a blue "Log In" button with a red box around it. Below the details, there is a link: "Email receipt to: ttiger@tigermail.com".

5. A window will pop up asking if you would like to exit the network or continue. Click **Continue**.
6. You are now connected to the um-guest wireless network.

Note: If you have previously logged into the um wireless network, you will receive this message after clicking Continue:
