

Choosing a Major

Assess yourself

What are your interests, skills, strengths, values?

UofM offers FOCUS-2 assessment thru Career Services and Career Counseling

Do Some Research

Based on your assessments, look into careers/majors that suit you.

Careers

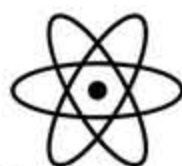

- Do online searches
- What is this career?
- What kind of degree does that career require?

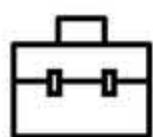

Majors

- Look at UofM majors on departmental webpages.
- Consult the Undergraduate Catalog for required classes and 4-year degree plans.

Get a Little Experience

Take an introductory course in that major.

Join a related student organization

Try job shadowing or interview someone in the field.

Evaluate Experiences

- Were you interested in the class(es)?
- What did you like/not like about shadowing?

Can you envision doing this (at least until you graduate)?

Make Your Decision
