SELECTING ACCOUNTING AS YOUR FOCUS
Success in accounting relies on an aptitude for problem solving, inquisitiveness, critical thinking, adaptability and common sense, not necessarily on a prowess in mathematics. If these skills align with yours, choosing to major in accounting may be the path for you.

ACCOUNTING: A CAREER IN DEMAND
Accountancy offers a range of exciting careers and opportunities; much more than the misconception of dull, number-crunching desk work. In actuality, the accounting field provides fundamental skills for a career path in the fast-paced, dynamic world of business. Majoring in this degree will equip you with the necessary proficiencies for successful entrepreneurial ventures.

As a universal profession, accountancy also offers geographic freedom because – no matter where you choose to live – businesses and the private sector will always need accountants.

A career in accountancy offers job stability and growth. As more companies go public and the economy experiences continued growth, the need for accountants rise as well. And, the globalization of a business, trade, mergers and acquisitions also increases demand for accountants.

EARNING POTENTIAL INCREASES with a MS, MBA or CPA

OUR PROGRAM
The Bachelor of Business Administration (BBA) in Accounting is a four-year program (minimum 120 credit hours) that prepares you to enter the workforce. Students explore such topics as accounting and its functional support of organizations, technological competency, effective communication and team orientation, business ethics and global business practices.

The Master of Science (MS) in Accounting program is a 30-credit-hour graduate degree, designed for those who hold undergraduate accounting degrees and aspire to achieve advanced accounting and business education. The Crews School of Accountancy (CSOA) has completed curriculum updates for both the BBA and MS Accounting Programs consistent with the latest Certified Public Accountant (CPA) Exam content and format requirements. Graduates of the combined curriculum (BBA and MS) meet the educational requirements to sit for the CPA exam. A PhD in Accounting is offered to students seeking a career in higher education.
ONLINE ON YOUR TIME
Earn your BBA in Accounting online through UofM Global, with classes to suit your schedule.

OUR FACULTY
CSOA faculty members actively contribute to the accounting profession in several notable ways. Recent and ongoing activities include publishing research articles in elite academic journals, serving as reviewers of manuscripts submitted to top journals for possible publication, presenting their research papers at national and international academic conferences, authoring books for practitioners in the accounting profession and serving as editors for accounting journals published by the American Accounting Association. In addition, many our faculty members have been the recipients of prestigious UofM and FCBE teaching awards.

MILE Protegé

"I have loved my time involved with the Crews School of Accountancy. Interestingly enough, I did not originally plan to pursue a career in accounting. However, the lower-level accounting classes sparked my interest in this dynamic and challenging field. The professors also played a large role in ensuring an overall positive academic experience. They are incredibly supportive and passionate. Their goal is to nurture successful future accountants. By pursuing this major, I feel like I am set up for professional success."

CAREER OPPORTUNITIES
Local firms and corporations consistently recruit FCBE accounting students, putting our graduates in high demand. Some positions accepted or sought by our graduates include certified public accountant (CPA), chief financial officer, corporate controller, certified financial planner (CFP), business manager, certified internal auditor (CIA), bank examiner, certified management accountant (CMA), Internal Revenue Service agent, Bureau of Alcohol, Tobacco and Firearms (ATF) agent and FBI special agent.
