For Approval
The Audit Committee of The University of Memphis Board of Trustees met at 9:49 a.m. CDT, on Wednesday, March 6, 2019, on the University of Memphis’s main campus in Memphis, TN.

I. CALL TO ORDER

Trustee Carol Roberts called the meeting to order.

II. ROLL CALL AND DECLARATION OF QUORUM

Melanie Murry, Legal Counsel and Board Secretary, called the roll and confirmed the following Audit Committee members were present, either in person:

- Trustee Edwards*
- Trustee Ellison*
- Trustee Gilmore
- Trustee Graf*
- Trustee Johnson*
- Trustee Roberts*
- Trustee Springfield*

*Voting members

Secretary Murry announced the presence of a quorum.

III. APPROVAL OF MINUTES DECEMBER 5, 2018

Trustee Roberts called for a motion to approve the December 5, 2018, Audit Committee meeting minutes that were included in the meeting materials. The motion was made by Trustee Graf and properly seconded. A voice vote was taken, and the motion was unanimously approved.

IV. 2018 ANNUAL FINANCIAL REPORT AND INTERNAL CONTROL AUDIT

Trustee Roberts recognized Chief Financial Officer Raaj Kurapati to present the 2018 Financial Report.

CFO Kurapati indicated that he would first review the External Audit Report. The report is an annual report and is conducted in accordance with the Single Audit Act for entities that receive
federal funding. It is a report on both our financial statements and internal controls. The audit was conducted by the Tennessee Comptroller General’s State Auditor’s Office. At this period I time, the audit is still in draft state. The report presented an unmodified opinion, which effectively means that it is a “clean” opinion with no audit findings disclosed as a part of the audit. The final report is expected to be issued in the following weeks.

CFO Kurapati reviewed the financial statements using the presentation contained in the meeting materials. In summary:

1. The UofM implemented GASB 75 which resulted in additional liabilities added to the books.
2. Assets: Assets increased by approximately $22 million. Total cash decreased and investments have increased as we are currently taking a more strategic approach to managing the cash pool resulting in a better return on the investments; receivables increased slightly, and capital assets, as we continue with construction projects, will continue to increase.
3. Liabilities: UofM liabilities have seen a slight uptick as well. We have seen an increase in our retirement obligations as a result of implementing GASB 75, bonds payable is consistent with the prior year, but these will increase as the building projects are completed.
4. Revenue: Revenue is relatively consistent. Tuition and fees have decreased slightly, state appropriations increased by approximately $10 million, grants and contracts have increased primarily due to an increase in competitive federal grants received, and auxiliary revenues have decreased by $2.5 million.
5. Expenses: Salaries have increased while everything else is pretty much in line.
6. Composite Financial Index: As a management strategy, the UofM will look at all management decisions from the perspective of how they impact the CFI. The CFI is a combination of four metrics that measure of the overall health of the institution and has been adopted by major institutions of higher education nationally. The UofM’s CFI score has dropped by 60 basis points during fiscal year 2018. The two items that impacted the score included the recording of a significant expense ($10 million) related to the payout to the former basketball coach and the increased liability ($9.1 million) as a result of implementing GASB 75.

A discussion ensued around the CFI index:

Trustee Roberts asked to look again at the graph representing the CFI metrics and noted that it appears that the metrics are trending downward. She inquired as to the underlying reason for the decrease. CFO Kurapati indicated that the increase in debt seems to be of primary concern.

President Rudd stated that the UofM has taken on $56 million in debt for the dorm (Centennial Place) and the UofM doesn’t currently have the capacity to do additional facilities upgrades. The parking garage is an investment in the core infrastructure. The average age of campus buildings is over 57 years. There is a challenge around managing
the debt without shifting the cost to students through tuition increases. The debt associated with the parking garage will be serviced through parking fees. We will take on some limited debt on the student recreation center, but this is critical for core infrastructure growth. There will be no debt with the Music Center because this is a cash-based facility through the State of Tennessee. Trustee Edwards indicated that the years where the UofM was performing at a CFI Index of 4.0 were also the years where we were raising tuition by 10% or 12% or 14%. He also indicated that affordability is as much a focus of the Board as the index. Trustee Graf stated that the University is investing for the long-term.

CFO Kurapati indicated that, if the UofM did nothing about managing the CFI and all of the debt came on to the books, the score would decrease to 1.41 in 2019 and end 2021 at 1.49. In taking a look at how the University could manage the index, we are reviewing the possibility of bringing the Herff Trust onto the books, which would cause the index to jump to 2.77 and, because we have debt coming on, the CFI would eventually be 2.06. There are also discussions about bringing the Chairs of Excellence (for which the UofM owns 50%) on the books. Currently, the endowed asset is being managed by the State.

Trustee Graf indicated that the UofM needs to focus on cash inflows v. outflows and stated that everything the Board is doing is designed to attract more students which will expand the cash flow growth of the University. It was agreed amongst the Trustees and administrators that the UofM must focus on sound decisions that move the institution forward.

7. CFO Kurapati next provided an investment income update. The original base budget for investment income was $284,000. The UofM has raised the base budget to approximately $2.6 million in the revised budget bringing the net income year to date to approximately $3.4 million. The University had a significant unrealized loss reversal but believe that the UofM will exceed $1 million in unrealized gains at year end.

Trustee Edwards asked whether the University had the flexibility to go outside the pools that the State makes available for investment. In response, CFO Kurapati indicated that we could go outside the pools; however, there are strict guidelines that need to be adhered to. The UofM can only invest in highly rated securities. Within those guidelines, the UofM is looking at longer term investments.

V. RISK ASSESSMENT

Trustee Roberts recognized CFO Kurapati to discuss risk assessment.

Risk Assessment is a framework for organizing ideas and concerns related to potential risk to the University. It is often combined with an assessment of controls to ensure that we consider any mitigating controls and actions that we have in place. The enterprise risk management is
effectively a structured and consistent process that looks at risk across the organization by assessing the risk and deciding on our response to address specific threats. The University employs a seven-step process (detailed in the presentation contained in the meeting materials):

1. Understand the context;
2. Find and recognize the risk;
3. Comprehend the nature of the risk and risk level;
4. Compare the risk analysis with the risk criteria to determine acceptability level;
5. Ensuring that we have the internal controls to avoid or transferring the risk, or in some cases accepting the risk;

It is a continuous process that is fundamental to the health of the organization, is essential to strategic management of the organization, is important to achieving objectives, it increases efficiency and effectiveness of the organization, and ensures compliance with the appropriate statute.

The University employs the Crawford Model which is a color-coded method that identifies the high, medium and low risks. During 2018, the UoM identified 10 major processes to evaluate. Additionally, the UoM separated enrollment services and student services in to two separate processes and expanded to include faculty involvement from over 50 deans and chairs in the process. The process is a bottom up approach to develop the risk footprint and control footprint. These documents were then presented to senior management for review. Meeting materials detailed nine significant enterprise risks. For all risks identified, there is a control assessment. CFO Kurapati provided risk example with related control assessments and solutions.

Question(s):

- Is there a periodic review and refresh related by leader as to data access and who has access to what systems? CIO Robert Jackson confirmed that this is the case and have updated our security related to this issue.

Trustee Roberts asked for a motion to approve the Risk Assessment Plan as detailed in the meeting materials. Trustee Graf made the motion which was properly seconded. A voice vote was taken, and the motion was unanimously approved.

VI. SUMMARY OF AUDIT REPORTS ISSUED

Trustee Roberts recognized Vicki Deaton, Chief Audit Executive, to present the remainder of the agenda items.

Ms. Deaton presented a summary of audit reports issued. Since the last meeting, there have been two audit reports issued: Athletics Team Travel expenses and the Department of
Economics Financial and Compliance Audit. The audit report for both indicates an opportunity for improvement.

The next item is a summary of the reports of fraud, waste and abuse. Auditing received four new reports during the current quarter and there was one report that was received last quarter that was resolved during the current quarter. Two reports were referred to other University organizations for resolution, with both being resolved during the quarter. There is one report where a memo was issued by Internal Audit. There are two reports that continue to be under investigation at this time.

Internal Audit also conducted audit issue follow-ups during the quarter. Internal Audit has received all nine of the action plans from the relevant departments.

Internal Audit received two external audits related to:
- The Application of Agreed Upon Procedures to UofM’s Intercollegiate Athletics Program Statement of Revenues and Expenses: The report made a correction related to a change in procedures related to institutional and Foundation endowment.
- The Hazardous Waste Inspection Report: The auditors found four violations that were easily corrected, and no civil penalties were assessed. As a result of the environmental audits conducted over the past year, Internal Audit is convening a subset of our compliance council to take a closer look at health and safety issues. It is anticipated that the group will bring a report to the Board at one of the next two meetings.

VII. ADDITIONAL COMMITTEE BUSINESS

There was no additional Committee business.

VIII. ADJOURNMENT

The meeting was adjourned at 11:00 a.m. CDT.
4. Annual Review of Internal Audit Charter
For Approval
Report to the Audit Committee of the Board of Trustees

Report
For Approval

Date: June 5, 2019
Committee: Audit Committee
Report Title: Review and Approval of Office of Internal Audit and Consulting Charter
Presented by: Vicki D. Deaton, Chief Audit Executive

Synopsis:
The purpose, authority, and responsibility of the internal audit activity must be formally defined in an internal audit charter, consistent with the IIA’s Definition of Internal Auditing, the Code of Ethics, and the Standards. The internal audit charter establishes the internal audit activity’s position within the organization, including the nature of the chief audit executive’s functional reporting relationship with the board; authorizes access to records, personnel, and physical properties relevant to the performance of engagements; and defines the scope of internal audit activities.

To comply with the requirements of State of Tennessee statutes and the Audit Committee Charter, which was based on State of Tennessee Comptroller of the Treasury guidelines and approved by the University of Memphis Board of Trustees and the Tennessee Comptroller of the Treasury, the attached University of Memphis Office of Internal Audit and Consulting Charter is presented to the Audit Committee. According to the Audit Committee Charter, the Audit Committee must “review, approve, and update the Internal Audit charter annually or more frequent if necessary.”

The University of Memphis Office of Internal Audit and Consulting Charter was last reviewed and approved at the June 6, 2018 Audit Committee meeting. There are no changes to the charter at this time.
University of Memphis  
Office of Internal Audit & Consulting Charter  
June 6, 2018

Introduction
The University of Memphis is within the state university system in Tennessee. The University is governed by an independent board, the Board of Trustees (Board), established by state statutes. The University of Memphis Audit Committee is a standing committee of the Board. In accordance with state statutes, the Office of Internal Audit and Consulting (Internal Audit) reports directly to the Audit Committee. All Internal Audit activities are conducted in accordance with all state statutes relative to Internal Audit and Audit Committees. In addition, the state statutes require that Internal Audit activities are governed by adherence to The Institute of Internal Auditor’s (IIA) mandatory guidance, which includes the Definition of Internal Auditing, the Code of Ethics, and the International Standards for the Professional Practice of Internal Auditing (Standards). This mandatory guidance constitutes the fundamental requirements for the professional practice of internal auditing and the principles against which to evaluate the effectiveness of Internal Audit’s performance.

Purpose
Internal Audit is an independent, objective assurance and consulting office designed to add value and improve the University of Memphis’ operations. Internal Audit helps the University accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

University of Memphis management has responsibility for risk management, control and governance. Therefore, University management has the primary responsibility for risk assessment, compliance oversight, and establishing and maintaining a sufficient system of internal controls. Internal Audit serves in an advisory role and assists University management in the effective discharge of their duties and responsibilities by evaluating activities, recommending improvements and providing other information designed to promote effective controls.

Internal Audit Plan
Annually, the Chief Audit Executive (CAE) develops an internal audit plan based on the University’s risk assessment, state statute requirements, and input from University management. The plan is submitted to the Audit Committee for review and approval. The CAE reviews and adjusts the plan as necessary in response to changes in Internal Audit’s resource levels or changes to the University’s risks, operations, programs, systems, and controls. Any significant deviation from the approved internal audit plan will be communicated to and approved by the Audit Committee.

Services
Internal Audit performs assurance services by assessing evidence to provide an independent opinion or conclusion regarding a University entity, operation, function, process, system, or other subject matter. The nature and scope of assurance engagements are determined by the approved internal audit plan and staff of Internal Audit. There are generally three parties involved in assurance services: (1) the person or group directly involved with the entity,
operation, function, process, system, or other subject matter — the process owner, (2) the person or group making the assessment — Internal Audit, and (3) the person or group using the assessment — the user.

Consulting services are advisory in nature and are generally performed at the specific request of an engagement client. The nature and scope of the consulting engagement are subject to agreement with the engagement client. Consulting services generally involve two parties: (1) the person or group offering the advice — Internal Audit, and (2) the person or group seeking and receiving the advice — the engagement client. When performing consulting services, Internal Audit should maintain objectivity and not assume management responsibility.

**Authority, Responsibility, and Scope**

Internal Audit’s performance of assurance and consulting services may include the examination and evaluation of the effectiveness of all aspects of University operations. Internal Audit has full and direct access to all University records, which includes electronic and manual records, personnel relative to their performance of duties and responsibilities, and access to all University physical properties. All documents and information obtained by Internal Audit will be treated in a confidential manner to comply with all policies, laws, and regulations regarding protection of University information.

Internal Audit does not have direct responsibility for, or authority over, any of the activities, functions, or tasks it reviews. Internal Audit’s review does not relieve others of their responsibilities. The Internal Audit staff must maintain a high degree of independence. They must not be assigned duties or be involved in activities that are the responsibility of University management. Internal Audit should only engage in activities that they would normally be expected to review or evaluate as part of the normal Internal Audit function.

Internal Audit is not independent for the purpose of issuing an opinion on the University’s annual financial statements per the requirements for an external auditor under Tennessee Board of Accountancy regulations. The Tennessee Comptroller of the Treasury’s Division of State Audit serves as the external auditors for the University based upon state statutes.

**Organizational Structure**

The Office Internal Audit and Consulting reports directly to the Audit Committee but reports administratively to the University President for internal accounting purposes. However, to provide independence and to comply with state statutes and Tennessee Comptroller of the Treasury’s requirements, Internal Audit has direct reporting responsibility to the Board of Trustee’s Audit Committee. Internal Audit staff have organizational independence and strive to carry out their responsibilities with professional objectivity.

**Reporting and Monitoring**

All audit work is summarized in written reports distributed to University management to ensure that significant issues noted in audits are properly addressed by University management. In addition, summaries of all Internal Audit activities are distributed to the Audit Committee and all significant issues are emphasized to the Audit Committee. Internal Audit will answer questions and provide additional details for any Internal Audit activity when requested by the Audit
Committee. Internal Audit is responsible for following up on issues noted in audits or other projects conducted by Internal Audit to ensure issues are addressed by University management. Any issues not properly addressed by University management will be reported to the Audit Committee.

All Internal Audit reports are provided to the Tennessee Comptroller of the Treasury’s Division of State Audit in their role as external auditors for the University. All investigation reports are provided to the Tennessee Comptroller of the Treasury’s Division of State Audit and the Division of Investigations.

**Periodic Review of Office of Internal Audit & Consulting Charter**

This charter will be periodically assessed by the Chief Audit Executive to determine whether the purpose, authority, and responsibilities defined in this charter are adequate to enable the Office of Internal Audit and Consulting to accomplish objectives under the IIA Standards and state statutes. The results of the periodic assessment of this charter will be communicated to University management and the Audit Committee.
5. FY 2020 Audit Plan
For Approval
Report to the Audit Committee of the Board of Trustees

Report
For Approval

Date: June 5, 2019
Committee: Audit Committee
Report Title: Proposed FY2020 Internal Audit Plan
Presented by: Vicki D. Deaton, Chief Audit Executive

Synopsis:
To comply with the requirements of state statutes relative to internal audit activities and the UofM Audit Committee Charter, the Proposed FY2020 Internal Audit Plan for the University is presented for review and approval by the Audit Committee.

Recommendation:
The Audit Committee recommends approval of the Proposed FY2020 Internal Audit Plan as presented in the meeting materials.
**Background Information – Proposed FY2020 Audit Plan**

In higher education, the audit universe is normally categorized by the following functional areas:

- Academic
- Administrative
- Other

At the University of Memphis, the 3 functional areas include the following 25 audit entities:

In Tennessee governmental entities, internal audit plans are comprised of risk based audits, required audits, special requests, and investigations. The risk based portion, (about 65%) of the FY2020 Proposed Audit Plan, is in part derived from the University’s risk assessment process that Management prepares to comply with the Tennessee Financial Integrity Act, and consideration of the University’s goals, vision, and mission. The plan also includes required projects and activities, projects carried over or deferred from the prior year, and time for investigations, consulting, and follow up of past audit issues. University management were given the opportunity to provide additional input into the plan, and details of the Proposed FY2020 Audit Plan were shared with executive management.

Below is the budgeted resource allocation by type of activity for the last 3 years.

The plan may be impacted and revised during the year due to changing risk factors and special requests from management. Any significant changes to the plan will be reviewed and approved by the Audit Committee.

The University of Memphis
Internal Audit
Budget Snapshot

---

June 2019 Audit Committee Meeting
6. FY 2020 Internal Audit Budget
Internal Audit Snapshot Summary

Page 23 of 66
Challenges for University of Memphis Office of Internal Audit & Consulting

- Providing audit coverage for growing University assets and expanding risk areas
- Providing oversight of external audits and reviews of University and affiliates
- Providing not only required but useful communications to Audit Committee

Due to the challenges facing the Office of Internal Audit and Consulting, a request was made to increase the FY2020 base budget to partially fund a Staff Auditor position. The increase would be combined with funds currently available in an Internal Audit undistributed salary budget account. If the base budget request is not approved for a permanent position, a limited Staff Auditor position will be investigated.

Report
For Information

Date: June 5, 2019
Committee: Audit Committee
Report Title: Summary of Audit Reports Issued
Presented by: Vicki D. Deaton, Chief Audit Executive

Synopsis:

One audit report was issued this quarter - the Admissions Operations Audit. The report opinion was Effective with the Opportunity for Improvement.

The Internal Audit Quality Self-Assessment Review report was also issued this quarter and is part of an ongoing external quality assessment. The UofM Office of Internal Audit and Consulting’s Quality Assurance and Improvement Program includes ongoing internal monitoring, periodic internal assessments, and external quality assessments. The self-assessment is complete, and the assessment finds that the UofM internal audit function generally conforms to the IIA’s Standards, Definition of Internal Auditing, the core principles, and the Code of Ethics. Independent reviewers are currently performing a validation of the self-assessment.

What is Institutional Control

• The control and responsibility for the conduct of intercollegiate athletics shall be exercised by the institution itself and by the conference(s), if any, of which it is a member. Administrative control or faculty control, or a combination of the two, shall constitute institutional control.
Ethical Conduct (10.1)

Refusal to furnish information relevant to an investigation of a possible violation of an NCAA regulation when requested to do so by the NCAA or the individual's institution

Knowing involvement in arranging for fraudulent academic credit or false transcripts for a prospective or an enrolled student-athlete

Unethical Conduct

Knowing involvement in offering or providing a prospective or an enrolled student-athlete an improper inducement, extra benefit or improper financial aid

Knowingly furnishing the NCAA or the individual's institution false or misleading information concerning the individual's involvement in or knowledge of matters relevant to a possible violation of an NCAA regulation

Recent Infraction Cases

• **Major Infractions Case** – University of Missouri, Columbia – *Level I*

  • **Date:** January 31, 2019
  
  • **Involved Sports:** Baseball, Football, Softball
  
  • **Violation Summary:** A former University of Missouri, Columbia, tutor violated NCAA ethical conduct, academic misconduct and academic extra benefits rules when she completed academic work for 12 student-athletes. Although the tutor said she felt pressure to ensure student-athletes passed courses, according to the committee’s report, the investigation did not support that her colleagues directed her to complete the student-athletes’ work. In its decision, the committee stated, “Simply put, 12 student-athletes did not complete their own work.” It continued that the tutor engaged in the activity despite receiving extensive and comprehensive education on appropriate tutoring practices.

  • *Penalty summary on next slide*
Penalty Summary:

• Three years probation
• 10-year show-cause order for the former tutor and institutional dissociation from the tutor
• 2018-19 postseason ban for baseball and softball
• 2019-20 postseason ban for football
• A vacation of records in which football, baseball and softball student-athletes competed while ineligible
• 5% reduction in the amount of scholarships in football, baseball and softball for 2019-20
• Seven-Week ban on unofficial visits
• 12.5% reduction in official visits
• 7-week ban on recruiting communications
• 7-week ban on all off-campus recruiting contacts and evaluations
• 12.5% reduction in RPD or evaluation days
• A $5,000 fine plus 1 percent of each football, baseball and softball budgets
Recent Infraction Case #2

**Major Infractions Case** – University of Oregon – *Level II*

**Date:** December 05, 2018

**Involved Sports:** Football, Men’s Basketball, Mixed Track – Outdoor, Women’s Basketball, Women’s Track – Indoor

**Violation Summary:** The head University of Oregon women’s basketball coach failed to monitor and promote an atmosphere of compliance in his program, and the head men’s basketball coach failed to monitor his director of basketball operations. In the women’s program, the assistant strength and conditioning coach impermissibly participated in on-court activities, which caused the program to exceed the number of allowable coaches. Similarly, in the men’s program, the director of basketball operations impermissibly participated in and observed voluntary workouts. The case also included academic misconduct by an adjunct instructor who changed a grade for a women’s track and field student-athlete. Lastly, the football program gained a recruiting advantage when it impermissibly displayed personalized statistics of visiting recruits during unofficial and official visits on an electronic board.
Penalty Summary:

- A two-game suspension for the head women’s basketball coach during the 2018-19 season.
- A two-year show-cause order for the director of men’s basketball operations. Any NCAA member employing him during the period must require him to attend the 2019 and 2020 NCAA Regional Rules Seminars.
- A vacation of records in which the track and field student-athlete participated while ineligible.
- The men’s basketball program must reduce the number of countable coaches by one at regular practice for five hours during the 2018-19 season.
- The women’s basketball program must reduce the number of countable coaches by one at regular practice for 10 hours during the 2018-19 season.
- A $5,000 fine plus 1 percent of each of the men’s and women’s basketball budgets.

Institutional NCAA Violation

University of Memphis - Level III

Date: 1/3/2019

Sports involved: Men’s Basketball

Violation summary: During half-time of a home Men's Basketball contest, institution's marketing and promotions department had an promotional activity to engage fans into cheering to win a free pizza. The promotional activity occurs at every home contest. The winner of the contest is supposed to be chosen at random. On this occasion, the in-game announcer, who is a student worker, recognized PSA (who is a 2019 signee with institution) in the stands and decided to announce him as the winner of the free pizza. The pizza in this case is a pizza box with a free pizza coupon inside the box.

Penalty Summary:
• Rules Education with Marketing Department
• Letter of admonishment
• Student worker was prohibited form working the next 2 Men’s Basketball home contests
