Instructions on “Security Settings” setup. This is required for adding a new eRefund account, changing an eRefund account, and changing Personal Information in TigerXpress.

1. Log into TigerXpress
2. Click on “Security Settings” on the right side of the page.

3. Select the “Primary Method” of verification (text or email)

4. Either select an existing choice or enter new information.
   a. If you already have a Phone Number in TigerXpress for text alerts, this option will be shown.
   b. For email address, your U of M email address will also show for a quick choice.
5. Once the contact information is entered a 6-digit code will be sent to your selection (text/email) that must be entered for verification.

6. Enter the code in the box and click “Verify”.
7. The security verification setting has been set up.
