Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

The majority of the students enter the program with a master's degree in counseling, psychology, or a similar mental health training program and complete the program in 4 years (including the predoctoral internship year). Students who completed courses in their master's programs that substantially overlap with those required for the doctoral program (primarily scientific foundation areas of psychology, e.g., social, biological, cognitive, history & systems, lifespan development) may petition to transfer in credit for those courses, allowing more time for elective courses or the option of taking a lighter credit load during some semesters. Students are allowed to transfer a maximum of 15 credits; although 3-9 credits is the typical number that students transfer. Course transfer requests are considered by the student's academic advisor during the student's first semester of enrollment. Faculty consider the Graduate School criteria relevant to credit transfer and the extent to which the prior coursework addresses the content area. Students entering with a Bachelor's degree or some graduate courses toward a master's degree, but who have not earned a master's degree, can expect to be enrolled an additional 1 to 2 years (total of 5-6 years including the predoctoral internship year).
