Graduate Programs in Educational Psychology & Research (EDPR)

Shaping the future of educational
research, policy and practice.

The Doctoral Program

Our Ph.D. program will prepare you for careers in academic and professional communities with expertise and research experience within your area of study. Open to both full-time and part-time students, our rigorous program emphasizes both individual and group research activities. You will work closely with your advisor and mentor, who will monitor your progress in achieving your personal goals. Together with the faculty and fellow students, you will participate in research groups, make presentations at national conferences, and publish research findings.

For information on application requirements and deadlines for all our programs, go to memphis.edu/edpr.

Where Transformative Leaders Are Developed And Supported

When you choose the U of M for your graduate degree in EDPR, you will be learning and working with gifted faculty members who will provide personalized mentoring, no matter where you plan to take your career. At the graduate level, we offer:

- **Doctoral Degree (Ph.D.)** with two interrelated concentrations: Educational Psychology and Educational Research
- **Master of Science (M.S.)** with two interrelated concentrations: Educational Psychology and Educational Research
- **Certificates** in Quantitative Methods and Qualitative Research

A Powerful Focus On Intensive Research

All of our tenure-track and tenured faculty members are active researchers in diverse fields and will help you tap into your own research interests in your concentration area, striving to offer opportunities to unlock grants and other funding sources to support your research.

- The Concentration in Educational Psychology focuses on research in learning, cognition, motivation and human development, especially the cultural nature of human development in our changing society. We will help you develop a good understanding of the major theories and research for applying them in the profession you pursue.
- The Concentration in Educational Research focuses on research design and implementation in both quantitative approaches including measurement and statistical methods, and qualitative approaches including contemporary theories and methods.

The Master's Program

This research-oriented program will give you the advanced skills needed for careers in schools, higher education, government, industry and private consulting. Working closely with the faculty, you will get the individualized academic attention to your aspiration and career goals. Students in this program enjoy our well-defined but adaptive curriculum, lively research colloquia, and active research teams.

If you do not live near Memphis, you can take our online courses to earn a master's degree with a concentration in Educational Psychology. Your transcript and awarded degree from our online program will not differ from the traditional ones. Our online courses are taught entirely by University of Memphis faculty.
