

Cyber Ambassadors Tech Camp

Hack. Patch. Code.

The Center for Information Assurance (CfIA) in the Department of Computer Science at the University of Memphis is excited to host 2023 Cyber Ambassadors Tech Camp. This year's Cyber Ambassadors Tech Camp will offer high school students a distinctive learning experience focused on fundamental cybersecurity principles and ethics, while raising cybersecurity awareness through a range of autonomous R/C car projects on various types of cybersecurity attack scenarios including password hacking, buffer overflow attack, and man-in-the-middle attack.

For more information, call 901.678.4271 or email: um-CyberAmbassadors@memphis.edu
