Catering - Contactless Catering
• Introducing new: Dropoff catering & service model

Page 17
In order to support reopening with a range of options for appropriate distancing, we’ve classified solutions into a three-tier model.

We have created this plan for The University of Memphis with physical distancing approached within the second and third tiers and retain the ability to evolve as necessary.

The impact to service models, required equipment, hours of operation, safety enhancements, menu modifications and a plan for student and parent communications is outlined.

The basic safety standards will not vary, but will be used across all campus venues.

**Tier 2 & 3 Hybrid**

**Mid-Limited Distancing**

- Packaged meals
- Limited seating
- Take-away
- Served by associate

Safety measures are in accordance to the University and State of Tennessee guidelines.
Safety Across the Business

The safety of the campus community, our guests and our associates remain our top priority. In this time of physical distancing, we have adapted our procedures to include associate wellness checks. We have also increased the frequency of sanitization procedures, introduced new PPE and implemented physical distancing signage.
Safety Procedures Across Campus

At all locations, the following enhanced safety standards will be in place daily.

ASSOCIATE SAFETY

Daily Wellness Checks
✓ Every associate will receive a wellness check to include self-reported illnesses and a contactless temperature check.

Personal Protective Equipment
Face coverings will be provided and expected to be worn at all times by associates.

Guests must wear masks as well, except when actively eating.

Gloves are worn at all times when handling food.

Plexi health shield barriers used at all registers and points of service.

What is the difference between cleaning, sanitizing, and disinfecting?

Cleaning is the removal of debris. This is done with our standard surface cleaners to remove the presence of food and beverage particles.

Sanitizing is the removal of pathogens, such as those known to cause foodborne illnesses.

Both cleaning and sanitizing protocols exist within the USDA Food Code guidelines Chartwells has always followed.

Disinfecting is the killing of specific pathogens, such as COVID-19. CDC guidelines were updated May 20, 2020 to reflect new COVID-19 transmission understanding that high contact surfaces are not a primary source of infection.
CLEANING AND SANITIZING

✓ Associates wash hands and change gloves every 30 minutes, or less.

✓ Associates continuously cleaning tables, chairs and all high-touch surfaces with sanitizer.

✓ Sanitizer stations are available for guests to use at the entrances and exits and in the production areas for associates.

✓ Upon closing for the day, the team will disinfect the entire facility utilizing Diversey disinfectant.

✓ Back-of-house cleaning procedures will take place every 30 minutes. The culinary team will clean and sanitize surfaces and high-touch areas.

“Normal routine cleaning with soap and water will decrease how much of the virus is on surfaces and objects, which reduces the risk of exposure.”

EVERY 30 MINUTES

Diversey Suma Pan Clean or Suma Light Detergent

Diversey J512 Sanitizer

Diversity Virex II 256 J-fill 10 min

DAILY / DOWNTIMES

Disinfectants
Trainings

ServSafe COVID-19 safety training for both managers and food handlers.

Ongoing trainings will be covered at pre-shift meetings and provide the most up-to-date procedures.

Close coordination with local health departments on best practices.

Working through its purchasing company, FoodBuy, Chartwells will ensure that vendors follow similar safety protocol for their drivers and other associates, and delivery drivers will be discouraged from entering buildings and required to wear masks.

Physical Distancing

- One-way traffic management to help guests navigate dining and seating areas.
- Physical distancing in our kitchens and other back of the house areas.
- New capacity thresholds for each dining location.
- Reduction or elimination of cash handling.
- Signage visible at all hand washing sinks and time clocks.
- Floor decals and signs for guests to follow proper distancing and flow of service.

Plan associate training to cover all COVID-19 policy changes including:
- Mask, hand wash and glove requirements
- Tobacco & cellphone use policies
- Cell phone use policy stated above
- Cough and sneeze etiquette
- Guest interactions
- Cleaning policies and procedure changes
- Physical distancing expectations of associates
- Symptoms/temperature checks process
Monitoring the Supply Chain

Chartwells is closely monitoring the supply chain for potential disruptions due to COVID-19. Our supply chain management team is maintaining daily contact with all suppliers to monitor daily inventory at distributors, track manufacturing progress of key items, and assist with development of mitigation plans if necessary. A supply chain task force has been developed that includes sourcing, category management, quality assurance and distribution representatives. This task force meets daily to discuss all supplier risk management issues.

Additionally, supplier and delivery protocols have been developed to ensure products arrive to each unit safely. We have established COVID-19 specific distributor and manufacturer policies that ensure pandemic preparedness in our supply chain and distribution systems. Regular supply chain updates will be shared as the situation evolves.
Location Plans

The following pages provide a plan for University of Memphis campus, with special considerations and a customized approach.
## Residential (Tiger Den Eatery), Tier 2 & 3 Hybrid

### Mid-Limited Distancing

<table>
<thead>
<tr>
<th>EXPERIENCE</th>
<th>CHANGE</th>
<th>MODIFICATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>DINING ROOM</td>
<td>• Open with restriction</td>
<td>• Tables arranged for physical distancing</td>
</tr>
<tr>
<td>FOOD STATIONS</td>
<td>• No self-serve</td>
<td>• Served by associate, no self-serve</td>
</tr>
<tr>
<td>BEVERAGE</td>
<td>• All canned sodas and water or associate-served</td>
<td>• Served by associate</td>
</tr>
<tr>
<td>DISHWARE</td>
<td>• Support take-away service</td>
<td>• Ozzi container available for purchase</td>
</tr>
<tr>
<td>FLATWARE</td>
<td>• Used but protected</td>
<td>• Handed out by associate</td>
</tr>
</tbody>
</table>

### Menu Enhancements

- May double up favorite stations to avoid pinch points
- Restaurant-style favorite meals
- Full meal solution at each location
- At 75% return rate – Less-limited offerings and additional limited stations offered.
## Retail (Chick Fil A, Panda, TOMS, Etc.) Tier 2 & 3 Hybrid

### Mid-Limited Distancing

</table>
Grind City Coffee will be the pick-up Location for the following venues:
- Smoked
- Panda Express
- UC Market
- TOMs
- The Grind City Coffee menu will be available at TOMs and TOMs Boost menu.

Tiger Den Eatery will feature a special to-go menu available exclusively on Boost Monday–Friday.
STEP 2: Guest Entrance Requirements

All Dining Locations
✓ Sanitizer stand
✓ Plexi health shield barrier for cashier
✓ Associates in gloves and masks
✓ Signage for guests that masks are strongly advised
✓ Sanitizing hands is required for entrance to facility (guests and associates)
✓ Payment methods (options)
  • Contactless check-in (preferred where available)
  • Kiosks, Boost, Self-Pay, Mobile Pay (features)
  • Cash Accepted

STEP 3: Service ware Solutions

Residential
✓ Cutlery
  • Pre-wrapped kit
  • Associate-wrapped
  • Disposable cutlery
  • Reusable cutlery options
  • Touchless dispenser
✓ Dishware
  • Disposable to-go packaging (retail)
  • Reusable to-go containers available for purchase (TD)
  • Dine-in plates, cups, etc.

Retail
✓ Cutlery
  • Pre-wrapped kit
  • Associate-wrapped disposable cutlery
  • Reusable cutlery options
  • Touchless dispenser
✓ Dishware
  • Disposable to-go packaging
  • Dine-in plates, cups, etc.
STEP 4: Residential Station/Location Plan

To support safety, the operation of the following stations have been altered and the following practices have been put into place:

- Allergen Station – scheduling meeting with campus dietitian
- Salad bar/Deli bar – no self-service
- Ice cream machine closed
- Cereal bar – no self-service
- myPantry-breakfast breads, condiments – no self-service
- Hand fruit may be individually wrapped – no self-service
- No unprotected food available for self serve – everything must be served or individually packaged
- Milk – no self-serve
- Beverages – canned or associate-served
- Condiment stations – canned or associate-served
STEP 7: Guest Ordering

**Residential**
- 6 ft. distance, plexi health shield barrier and Boost
- One-way traffic flow to stations or in and out of locations

**Retail**
- 6 ft. distance, plexi health shield barrier, mobile kiosks, and Boost
- One-way traffic flow to stations or in and out of locations
Back of the House
All back of the house items will be implemented in all dining locations on campus.

General and Back-of-House Requirements:
✓ Identified back-of-house cleaning porter
✓ Completed daily BOH QA Checklist
✓ Completed daily FOH QA Checklist
✓ Back-of-House disinfection will occur (must occur at least 1x/day with Diversey Oxivir TB Cleaner Disinfectant)
✓ Trainings completed include:
  ✓ Cleaning high-touch surfaces
  ✓ Cleaning process and differences between disinfection processes.

Back Dock/Receiving:
✓ Sanitizer station for back door
✓ Dock cleaned and organized
✓ Visitor alert signage posted with manager contact for deliveries
✓ All delivery personnel must be wearing a mask
✓ Identify receiving spaces
✓ Follow vendor/supplier visitor guidelines
✓ Identified associates for product delivery handling
✓ Trainings completed include:
  ✓ Product delivery handling
  ✓ COVID-19 Receiving Procedures Policy
The following practices and tools will be implemented to help speed up service and practice safe social distancing on campus:

- **Grab and Go**
  Jack & Olive pre-package on-the-go options available.

- **Pick-up stations for order ahead**
  Space separate from main retail location to manage physical distancing and flow of traffic.

- **One-way aisles**
  Service change in Market stores to assist in keeping physical distancing recommendations.

- **Contactless payment options**
  ie Apple Pay, Android Pay and touchless checkout

- **Physical Distancing**
  Lines for the retail locations will be designed to practice physical distancing as guests wait for their food. With these safety precautions in place, the wait lines will not be reflective of speed of service, which is a priority to meeting guest needs.
Contactless Catering

NEW drop-off and contactless catering options are available on your campus to help promote safety and social distancing practices.
CONTACTLESS CATERING

We proudly introduce drop-off and contactless catering. This menu allows for flexibility to provide catering solutions for a wider variety of service levels. **Contactless catering will be the only catering option for Tier 1.** However, contactless catering will remain an option for Tiers 2 and 3.

How to order contactless catering

Contactless catering provides two simple platforms to order from:

1. Mobile: CaterTrax
2. Desktop: CaterTrax

Orders can easily be placed online through CaterTrax or Boost and dropped off at a designated space with no contact required.
CONTACTLESS CATERING

Menu and Ordering

The menu has been designed to accommodate various styles of events and appeal to a wide range of customers. Please see link to menu below. All recipes have been fully aligned with MenuWorks, have nutritional alignment and complete costing analysis.

Sample Menus

MenuWorks Recipe Card
CONTACTLESS CATERING

The Packaging Approach

All menu items in the contactless catering service will be packaged individually in disposable packaging. The packaging was selected to keep foods at the proper temperature during delivery and drop-off. A complete disposables guide has been aligned for all menu items to ensure accessibility and keep costs at a minimum to remain a competitive option in the business.
### Catering

#### Mid-Limited Distancing

<table>
<thead>

</table>
CATERING SERVICE CHANGES

Tier 2

All buffets will be attendant-served using disposables. Buffets will have the addition of portable sneeze guards or protective dome covers. Guests will be encouraged to maintain 6 ft. physical distancing. We still recommend offering the contactless menu approach in this tier.
