Course Website:

Office Hour: By appointment via email.

Course Description:
This course will discuss security issues and solutions in computer and mobile networks. Topics include Web Security (web security mode, web application security), Cryptography (symmetric cryptography, public-key cryptography, SSL/TLS, and other crypto tools), Network Security (security issues in network protocols, network defense tools, DoS attacks, etc.), Mobile Security (mobile platform security models, mobile threats and malware), and Cloud Security.

Why This Course?
Cyber security has become one of the most significant concerns in computer network and mobile systems, which have been widely used in our daily life. It helps businesses meet mandatory compliance regulations, protect customer data, and reduce the risk of legal action. It is vital for computer science students to gain the knowledge of analyzing security vulnerabilities and designing security solutions in today’s network and mobile systems. In this course, students will be able to learn the fundamental security issues and defenses techniques in network and mobile systems.

Textbooks
No textbooks are required

Evaluation:
Final Grades:
Midterms: 50% (2*25%), Homework: 30% (2*15%), Quiz: 20% (4*5%)

Grading Scale (%):
A: 85 – 100, B: 75 – 84, C: 65 – 74, D: 55 – 64, F: 54 and below. (Plus/minus grading will be used).

The instructor reserves the right to lower the percentage threshold for letter grades as s/he sees fit (i.e., may make the grading scale better for you, but never worse).
Course Policies:

Late Policy: Without prior request, no late work will be accepted. All late submission maybe accepted at a penalty of 15% per day for no more than three days.

Testing Policy: All the midterm exams given are closed book/note/laptop/neighbor. But students are allowed to bring one cheat sheet (one piece of letter-size paper) for quick reference. Midterm exams are not cumulative. There will NOT be any makeup exams unless there is a documented emergency.

Homework Assignment and Project Report Policy: It is recommended that students use a word processing software (e.g., Word or LaTeX) to type their homework solutions or project report, then submit well-formatted PDF files.

Plagiarism/Cheating Policy: These are mandatory statements

Plagiarism or cheating behavior in any form is unethical and detrimental to proper education and will not be tolerated. All work submitted by a student (projects, programming assignments, lab assignments, quizzes, tests, etc.) is expected to be a student's own work. The plagiarism is incurred when any part of anybody else's work is passed as your own (no proper credit is listed to the sources in your own work) so the reader is led to believe it is therefore your own effort. Students are allowed and encouraged to discuss with each other and look up resources in the literature (including the internet) on their assignments, but appropriate references must be included for the materials consulted, and appropriate citations made when the material is taken verbatim.

If plagiarism or cheating occurs, the student will receive a failing grade on the assignment and (at the instructor's discretion) a failing grade in the course. The course instructor may also decide to forward the incident to the University Judicial Affairs Office for further disciplinary action. For further information on U of M code of student conduct and academic discipline procedures, please refer to:

http://libguides.memphis.edu/academicintegrity
http://www.memphis.edu/studentconduct/pdfs/csrr.pdf

Disability Notice:

Any student who anticipates physical or academic barriers based on the impact of a disability is encouraged to speak with me privately. Students with disabilities should also contact Disability Resources for Students (DRS) at 110 Wilder Tower (901-678-2880). DRS coordinates access and accommodations for students with disabilities (http://www.memphis.edu/drs/).

COVID-19 Health and Safety Policy - Masks and Social Distancing
All students, faculty and staff will wear masks in all public spaces, including our classroom (lab) per the COVID-19 policy. The first time a student enters a classroom without wearing a face covering, the student will be asked to leave the class until they return a covering. Further violations will be referred to the Office of Student Accountability. Students who repeatedly or flagrantly violate these community expectations may be referred for discipline under the Student Code and, if appropriate, immediately removed from campus by the Dean of Students.

Student Health
Students who are experiencing symptoms such as sneezing, coughing or a higher than normal temperature should inform me by email so they can be excused from class and should stay home. Students should contact their health care provider or the Student Health Center at https://www.memphis.edu/health/. Students who have a positive COVID-19 test should contact the Dean of Students at deanofstudents@memphis.edu.

Student Accommodations
If and when we return to class, students seeking to remain remote for health or other serious reasons should discuss their options with me. Students with accessibility issues or with other learning accommodation needs due to a disability should contact Disability Resources for Students (DRS) to submit an official request for course accommodations. Contact DRS at 901.678.2880 or at drs@memphis.edu. (https://www.memphis.edu/drs/index.php)

Student Resources
Students who need additional resources can contact the Dean of Students Office at https://www.memphis.edu/deanofstudents/crisis/index.php.
