

## UNDERGRADUATE COLLOQUIUM:

# Cyber Security: Governance, Risk, and Compliance

Brian Burns, CISSP, CISA  
AutoZone Inc.

Wednesday, October 21  
11:30 AM – 12:15 PM, DH 123

### ABSTRACT:

I am going to speak broadly on the topic of governance, risk, and compliance and deep dive into any areas that are most interesting for the students. Security done right isn't just about hackers and breaches - how we identify and respond to rapidly changing risks, structure and report in the organization, and deal with compliance requirements from multiple jurisdictions are all key parts of a security program.
