

## ***Red Team vs. Blue Team : Hacking versus Incident Response***

**Friday, September 29, 2017**

**Mr. Thomas Davis**  
Director of Information Security  
ServiceMaster

*Abstract:*

In today's digital connected world, it is not a matter of if a hack occurs but when. It is important to understand both sides of the attack spectrum. We will talk about hacking techniques and exploits (Red Team) and appropriate ways to defend (Blue Team).

*About the Speaker:*

Mr. Thomas Davis is the Director of Information Security, Compliance, and Risk for ServiceMaster and its family of brands. Mr. Davis has over 15 years in Information Security. He currently holds a Bachelor of Science in Information Security as well as CISSP, SANS GSEC, and PCI ISA certifications.

***Reception in Dunn Hall 336 - 1:30pm***
