

January 2019

Dear prospective candidate:

Thank you for your interest in ReTrans. The ReTrans IT organization is seeking a part-time engineer and a permanent, full-time engineer for future employment. A brief company overview and job descriptions are listed below:

ReTrans Overview

ReTrans is a third-party logistics firm that manages transportation for shippers. Our primary technical activities are the support and development of software systems for transportation management, client interfaces, invoicing and data analysis. Our technical platforms include Python, Django, Linux, Windows, MySQL, Oracle, Business Objects, Subversion, Eclipse, and a proprietary transportation management system from MercuryGate International.

Job Description: Software Engineer

Qualifications: Successful candidates should have progressive experience in systems engineering or web application development. A bachelor degree in engineering or computer science is preferred.

Duties: The candidate will be a team member responsible for all technology at ReTrans and duties include but are not limited to systems engineering (specification, construction and tuning), application design and development, application testing, and database design and administration.

Preferred technologies:

- Database: MySQL; (Oracle, DB2, Postresql, SQLServer)
- Language: Python; (Java, C#, C++, Ruby)
- Framework: Django; (LAMP, .NET)

Job Description: Software Engineer Intern

Qualifications: Successful candidates must currently be pursuing a degree in a related field (e.g., Computer Engineering, Electrical Engineering, Computer Science) and have completed at least two years of an undergraduate degree.

Duties: The candidate will assist the team in using sound software engineering principles to develop code that is maintainable, efficient, reliable, and understandable. Duties include supporting the software configuration management process, bringing new ideas to the company, and proactively completing assigned tasks on time.

Preferred technologies:

- Database: MySQL; (Oracle, DB2, Postresql, SQLServer)
- Language: Python; (Java, C#, C++, Ruby)
- Framework: Django; (LAMP, .NET)

Resume submission

Email resumes and direct questions to Elise Salvia, IT Director, esalvia@retrans.com.

Thank you.

Sincerely,

Michael Bartz
Chief Information Officer
