

CHOOSE A CAREER IN CYBERSECURITY

Did you know that there are more than 500,000 cybersecurity openings? According to the U.S. Bureau of Labor Statistics, the annual median salary for an information security analyst is \$99,730, which is higher than a computer programmer's annual salary of \$86,550.

JOB OPPORTUNITIES INCLUDE

- Cyber Security Engineer
- Cyber Security Analyst
- Cyber Security Consultant
- Cyber Security Manager / Administrator
- Systems Engineer
- Software Developer / Engineer
- Network Engineer / Architect
- Vulnerability Analyst / Penetration Tester
- Cyber Security Specialist / Technician

Earning a BS degree in Computer Science with a concentration in Cybersecurity requires the same core courses and total number of credits as a general BS degree in Computer Science with no concentration. Choose from a variety of cybersecurity elective courses including digital forensics, secure coding and testing, network and mobile security, computer security and many more.

Enroll in the Cybersecurity Concentration Program Today!
