Job Description

Title: AI/ML & Computer Vision Engineer

About the company
Addiguru is a high growth start-up company where we are creating novel products for real time monitoring of metal additive manufacturing (3D Printing) process. Addiguru’s software utilizes affordable cameras and artificial intelligence to provide notifications as soon as an anomaly is detected thereby saving precious time on a build. Additive manufacturing is a quickly growing industry, held back only by high costs. Addiguru reduces cost by reducing waste and designing 3D printing to be self-healing. We are paving the way to revolutionize manufacturing.

Position Description and Requirements
Addiguru is looking for an individual to eventually lead machine learning and artificial intelligence. The person will be responsible for managing the AI/ML and computer vision related technology strategy as well as execution.

The company is growing quickly and the individual can grow quickly into a key technical leader or one of the top managerial positions in the company as per their interests. Ideally, the person joining in this position will be part of the senior executive team advising and working closely with the CEO and Head of Engineering. This is a huge opportunity for career growth for a potential candidate.

We are looking for the following qualifications:

- Experience with AI/ML technology especially Convolutional Neural Networks
- Experience with computer vision
- Advanced technological skill set and a demonstrated history with technology
- Team management skills
- Excellent verbal and written communication
- Ability to delegate efficiently
- Extensive knowledge with an eye towards the future

Other experiences that are optional but would be very valuable to the company are:

- Software engineering experience
- Electrical, Electronics, Materials, Mechanical or Aerospace industry experience
- Experience with 3D Printing or metal additive manufacturing
- Experience for working in a start-up

Location: Flexible

Remuneration: The salary and other details will be based on the expertise and experience. The person may be able to get equity (shares) in the company.

Contact Information: Interested person should contact Shuchi “SK” Khurana and send an email to sk@addiguru.com along with a brief resume.

Deadline: The position is open till filled.
