

# Student and Faculty Opportunities at Argonne National Laboratory

## Application Dates and Details

Discovery is at the heart of Argonne National Laboratory's mission—and that includes inspiring the next generation through our internship and faculty opportunities. Argonne offers students the chance to work alongside world-class researchers and turn curiosity into discovery. Explore Argonne's programs below – each designed to help participants grow and contribute to real-world science.

### [WDTS Science Undergraduate Laboratory Internships \(SULI\)](#)

**Application Opens: October 23, 2025**

**Application Deadline: January 7, 2026**

---

If you are an undergraduate student eager to explore the world of scientific discovery, the SULI program is a fantastic way to dive in. Participants spend the summer contributing to real research projects that drive innovation in energy, computing, national security, and more – all while gaining valuable mentorship and lab experience.

### [Community College Internships \(CCI\)](#)

**Application Deadline Opens: October 23, 2025**

**Application Deadline: January 7, 2026**

---

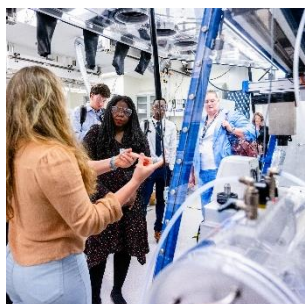

The CCI program opens doors for community college students to step into the lab and get hands-on with technical research. Participants gain practical skills, build professional networks, and explore how their classroom learning connects to real-world science and engineering challenges.

### [Visiting Faculty Program \(VFP\)](#)

**Application Opens: October 23, 2025**

**Application Deadline: January 7, 2026**

---

Designed to strengthen research partnerships and enhance competitiveness, the VFP program invites faculty members and their students from institutions that have limited research infrastructure to collaborate with Argonne scientists. It's an opportunity to exchange ideas, spark innovation, and develop lasting professional connections.

## **Lee Teng Internship in Accelerator Science & Engineering**

**Application Opens: October 21, 2025**  
**Application Deadline: November 28, 2025**

---

For those passionate about physics and engineering, the Lee Teng Internship offers a unique experience in accelerator science. Students engage in challenging projects that shape the future of particle acceleration and scientific discovery.

## **Argonne Seasonal Internship Program (SIP)**

**Application Opens: October 23, 2025**  
**Application Deadline: January 7, 2026**

---

Join a team that's pushing the boundaries of science and technology. The Argonne Seasonal Internship Program offers students the chance to contribute to cutting-edge research projects while working side by side with some of the brightest minds in their fields.

## **Givens and W.J. Cody Associates**

**Application Deadline Opens: November 1, 2025**  
**Application Deadline: January 15, 2026**

---

These fellowships provide students currently enrolled in applicable PhD programs with the chance to tackle mathematical and computational challenges that drive Argonne's research forward. Participants develop their skills while contributing to projects that bridge theory and application.
