

ENGL 7/8514:

Socio- linguistics

In this class we'll use language as a lens to explore the interplay between communicative choices and social relationships. Using factors like age, gender, ethnicity, geography, and social class, we'll examine naturally-occurring spoken, written, and digital language. Students will conduct research on how the language choices people make reflect (and reinforce) our sense of the world and our relationships with one another.

Thursdays @ 5:30pm
