

Motion to Recommend Approval of Option 1 of President's Merit Based Compensation Adjustment Proposal (FY23)

Originator: Faculty Senate Executive Committee

Whereas, the Senate passed a resolution in Spring 2022 recommending an across-the-board salary adjustment of 4% based on the Governor's budget recommendation of a 4% salary pool for high education.

Whereas, the Board of Trustees approved the 3% across the board salary increase with a possible 1% one-time bonus contingent on Fall enrollments proposed by the President.

Whereas, the President indicated that the 1% one-time across the board bonus was not feasible based on the tuition revenue from the final enrollment numbers for Fall 2022.

Whereas, the President of the University of Memphis has presented a merit-based salary proposal for faculty to the Faculty Senate Executive Committee with two options for the Faculty Senate to consider. The options are detailed in the attached document, and summarized as follows:

Option One: An increase to base salary equal to $\frac{1}{2}$ percent of the base salary for faculty that received an annual performance score of 4.5 or higher.

Option Two: A one-time merit bonus equal to one percent of the base salary for faculty that received an annual performance score of 4.5 or higher.

Be it resolved,

the Faculty Senate recommends that the President approve Option One, as stated in the President's proposal, which is attached.
