

MA-ECON Degree Assessment, AY: [TBD]		Activity Assessed	Faculty	Course/Section	
Goal 1	Graduates will acquire a strong base in theoretical economic analysis.	Oral Exam		Comps	

<u>Fair</u> Did Not Meet Expectations Limited Accomplishment Score = 1	<u>Good</u> Met Expectations Some Problems, but Needs Improvement Score = 2	<u>Exemplary</u> Met Expectations Considerable Expertise Shown With Project Score = 3
--	---	---

<u>Obj 1:</u> Formulate and solve optimization exercises.	Minimally accomplishes formulation of the optimization program. Major procedural flaws in finding the solution to the exercise.	Accurate formulation of the optimization program. Some procedural errors while computing the solution.	Clear and accurate formulation of the optimization program. Correct mathematical procedures and error-free computation of the solution.

Obj 2: Demonstrate a graduate-level comprehension of microeconomic and macroeconomic theory.	Weakness in understanding the analytical and mathematical concepts. Difficulty in comprehending the economic intuition behind theoretical models.	Some difficulty in understanding the theoretical models, but is reasonably clear in the comprehension of the analytical and mathematical concepts.	Excellent understanding of the theoretical and mathematical concepts. Strong intuitive comprehension of theoretical models.

Obj 1: Demonstrate mastery of microeconomic theory including the theory of the firm, household behavior, market structure, information and uncertainty.	Errors in analysis and lack of understanding of the essential theory, concepts and applications.	Minor errors and problems in understanding theory, concepts and applications.	Clear understanding of theory, concepts and applications.
