Annual Inventory Confirmation

• Annual Inventory Confirmation is a required procedure. UM 1772 Equipment Inventory Policy - http://umwa.memphis.edu/umpolicies/UM1772.htm

• Once a year Accounting will send a Fixed Asset Inventory Listing by Organization to Financial Managers / Equipment Reps.

• It is essential that you maintain accurate and up-to-date records of your department’s inventory.
Confirmed Fixed Assets

- "Capital Equipment" is a single item costing five thousand dollars ($5,000) or more.

- "Sensitive Minor Equipment" is particularly vulnerable to theft and has a cost between $1,500.00 and $4,999.99. Examples of items that may be viewed as sensitive minor equipment include: boats, boat motors, boat trailers, canoes, cameras, computers, audio and video equipment, microscopes, oscilloscopes, vector scopes, and other scientific equipment.

- Equipment under $1,500 is not included on Annual Inventory Confirmation report. A separate report including items under $1,500 may be accessed from the ePrint Banner Finance Repository (updated monthly).
Annual Inventory Confirmation

1. Make a copy of the Confirmation.
2. Physically confirm the location of all assets.
3. If all information is correct, mark each item listed with a ✓, “ok” or your initials.
4. Update changes to asset description (make, model, serial, etc.) – Indicate in RED on the Inventory Report.
5. Update Location or Org; surplus or zero value through Workflow (indicate WF on confirmation).

FFIMAST – Asset Status

Use Banner INB FFIMAST screen to check asset status.

- Assets that were previously zero-valued, cannibalized, or disposed are indicated by “D” or “C” and are NOT included on the confirmations.
Zero Value vs. Cannibalization
(description for workflow)

• A “zero value” item has no value due to extensive usage, age, outdated, broken, etc.

• A “cannibalized” item has been taken apart or broken down and its parts could be as spare parts for repair or construction of similar equipment.
FFIMAST – Organization

• To determine which org the asset belongs to, use the Banner INB FFIMAST screen. Enter Decal and select next block 3 times.
The list of current equipment representatives can be viewed at [http://bf.memphis.edu/spectrum/eqreps.php](http://bf.memphis.edu/spectrum/eqreps.php)

Audit Notes

Vicki Deaton, Chief Audit Executive
Sponsored Agreement Compliance

- One of our areas of audit is Sponsored Agreements.
- Sponsored Agreement Definition: An agreement funded by federal or nonfederal agencies, such as grants, contracts and cooperative agreements for research, training, instruction and public service activities. Sponsored Agreements are administered by the Office of Sponsored Programs, University of Memphis Foundation, University of Memphis Research Foundation, and Grants & Contracts Accounting. Sponsored agreements are assigned to restricted funds.
Audit Objectives

1. To determine that Sponsored Agreement charges comply with policy guidelines contained in UM1719 Charges to Sponsored Agreements, and UM1720 Cost Transfers.

2. To ensure cost sharing provided by the University on the Sponsored Agreement is in compliance with Policy UM1723 Sponsored Agreement Cost Sharing.
3. To ensure that Sponsored Agreement project investigators (PIs) are in compliance with the financial disclosure requirements outlined in UM1798 Disclosure of Financial Interests Related to Sponsored Research.

4. To ensure that Effort Certifications completed for the Sponsored Agreement are accurate, reasonably reflect the actual level of effort expended on a sponsored project, and comply with sponsor requirements, per Policy UM 1676 Certification of Effort.
5. To ensure that subrecipient monitoring is in compliance with procedures in Policy UM1721 Subagreements Issued to a Third Party (if the Sponsored Agreement includes subrecipients).
What is a Subrecipient?

• Sponsored awards made to the University are generally conducted within the physical boundaries of the University. Sometimes, work is parceled out to one or more institutions or third parties who are made responsible for a portion of a project awarded to the University.

• These third party organizations are referred to as subrecipients. The University’s relationship with the subrecipient is documented in a subagreement.
Monitoring Subrecipients

• The responsibility for monitoring subrecipients is shared between the PI, Research and Sponsored Programs, and Grants and Contracts Accounting, but the PI is vital to identifying and managing subrecipients.

• The PI has primary responsibility for maintaining and reviewing programmatic, fiscal, administrative and regulatory compliance, which should occur monthly.
Paying Subrecipients

- Subrecipients are required to submit an invoice to the PI. The PI will ensure that invoices are submitted in accordance with subagreement requirements.
- The PI must determine that the work is completed and that charges are allowable, allocable to the project, and reasonable. The PI’s signature acknowledges that work and milestones performed by the subrecipient are acceptable, and deliverables such as reports, data analyses, or required publications have been received.
• Technical progress reviews by the PI are documented by the PI’s signature on each invoice.

• According to Business and Finance, the current practice for paying subrecipients is through TigerBuy. POs should be created and subrecipient invoices should be receipted and paid through TigerBuy.
Auditing Subrecipient Payments

1. Select a sponsored agreement that includes subrecipients for audit.

2. Review transactional data for payments made to the subrecipient(s) for a specified period.

3. Verify that the subrecipient payments were processed in TigerBuy for the audit period.

4. View copies of the subrecipient invoices for the audit period and verify the PI’s signature authorizing the invoices.
Audit Issues Identified

While auditing grants in various departments during FY2017, we found:

1. TigerBuy was not always used in recording the purchase order and making subrecipient payments.

2. The PIs signature was not documented on some subrecipient invoices, so there was no evidence of PI review and approval of the invoice or technical progress review of the subrecipient.
Audit Action Plan Developed

Departmental management agreed to complete the following steps to address these audit issues:

- All subrecipient awards will be encumbered in TigerBuy and all subrecipient invoice payments will be paid through Tigerbuy.
- All Principal Investigators will signify a technical progress review and that all charges are allowable, allocable, and reasonable by signing each subrecipient invoice.

Request for Payment to Individual or Contractor

INSTRUCTIONS: Give two copies to Contractor. Contractor must sign and return one copy. Complete all sections of Part I. Send original to the Accounting Office.

This authorization may be used in lieu of a written contract if, and only if, the total compensation to the individual or contractor is less than $5,000.00. Payments to the same individual or contractor for $5,000.00 or more during a calendar year (whether fragmented or paid in a lump sum) require an obligated contract established through the Procurement and Contract Services. This form is sent to the Accounting Office any time a payment is requested to be made to an individual regardless of the amount. A form must be completed for each individual to be paid. The form is prepared by the requesting department and is used to secure approval of the authorization and to process the payment. Payments cannot be made to any University or State employee (which includes full or part-time faculty, staff) under this procedure.
