An undergraduate senior student may earn up to 12 hours of graduate credit while enrolled as a Combination Senior. Eligible students may enroll concurrently in undergraduate and select graduate courses. Approval to register for graduate credit does not imply approval for admission into a graduate program at the University or that the credit earned will be accepted towards a graduate degree. After the bachelor's degree is awarded, a Combination Senior student must make formal application in order to be admitted to a graduate degree program. Courses taken for graduate credit may not be used for both the baccalaureate and graduate degree. Combination seniors are not eligible for graduate assistantships.

Students who have been approved for the Accelerated Bachelor's/Master's (ABM) program will be allowed to count up to 9 hours toward both the undergraduate and graduate degree.
