## GRADUATE ADMISSIONS

### GRADUATE NON-DEGREE AGREEMENT

The Graduate Non-Degree classification is for students who wish to enroll in graduate courses but who may not wish to pursue any graduate degree at the University. This option is for transient students, students returning for educational workshops, and students fulfilling professional requirements. Graduate non-degree applicants may be asked to show proof of having earned a baccalaureate degree at any time. Please refer to the Graduate Bulletin for more information.

The following restrictions and conditions apply to non-degree students:

- Departments may restrict non-degree students to designated courses only.
- Graduate Non-Degree students who wish to matriculate for a degree must make application to the Graduate School and the department and must meet *all* admission requirements. Admission is not guaranteed.
- *After acceptance into a degree program, the student must complete a minimum of 2/3 of the course credits required in that program regardless of the number of credits completed as a non-degree student. Some departments count coursework toward a degree only after admission.*
- Non-degree students must maintain a 3.00 GPA. If a student's GPA falls below 3.00, he or she will **NOT** be allowed to register for additional coursework without written approval from the appropriate college director of graduate studies.
- Non-degree students may not hold graduate assistantships.
- A student can apply a maximum of 12 (twelve) credits earned while in non-degree status toward a degree program.

I have read and fully understood all the above restrictions and conditions and agree to abide by them.
