MMR

Under the current immunization law in the state of Tennessee, I am requesting an exemption for the MMR requirement. I understand:

- This exemption will remain in effect until I provide documentation indicating I have received the required two doses of MMR vaccine.
- **This exemption requires that I register in only online courses; registration in any on-ground course at the University of Memphis’ main campus or at any other University of Memphis site will revoke this exemption.**
- If revoked, to remain in my on-ground courses I will be required to provide documentation of 2 MMR immunizations by a deadline determined by the University.
- If the required documentation is not provided, I will be dropped from all on-ground courses for which I have registered, and my allowed maximum enrolled hours will be set to part-time hours.
- If I later provide the required documentation, I will be allowed to register in on-ground courses; but because the seats in my original classes may have been taken by others, I have no guarantee of recreating my pre-drop schedule.
