Healthcare Experience**	Experience as a healthcare practitioner, in the capacity of a health coach, nutritionist, personal trainer, strength and conditioning coach, or similar activity in which student works directly with clients/patients to improve health outcomes. 3 credits for 300 hours of direct work experience, with a maximum of 6 credits awarded.	Up to 6 Credits at the 4000/6000 level

*Note: In addition to receiving credits for certification or completion of an accredited program, students can receive additional credits for work experience in that area. 3 credits per 300 hours of work experience in the field will be issued with a maximum of 6 credit hours available for experiential learning credit. 3000 level Health Science credits will be issued with appropriate documentation. Please see the note below for information regarding work experience documentation.

**Note: To receive credit for prior work experience a verification statement from the employer who can confirm that 300 hours of work was satisfactorily performed is required. The work must be involving direct contact with individuals, such as direct patient care, performing personal training, nutritional consulting, exercise prescription, exercise testing, or similar activities. It cannot include administrative tasks. You must complete a written summary of the work that was performed, documenting the work in detail. The summary should be detailed and complete but should not exceed two written pages.
