

Wed 10-10 -

To office early as Althea & BMT had mtg. On way over Althea said to BMT that I had something to offer - was smart & had seventh sense about things. He said oh you why wasn't it there when MBW was after him. I said, I tried to tell him something was up but I didn't know what. This is so true as I used to dream horrible things would happen to him but my dreams always seemed unrealistic so I'd try to tell him to do this or that - "ing to perceive & evaluate the things I heard from friend & foe but he always stopped me with - "who told you" - "don't bring me any gossip", I can't deal with petty mess. - At that time, Jerry & Howard would talk freely & confidentially with me as they had always done. - Little did I know in 84 things would be like they are.

I'd even remind him of true fact -

most people who are not self starters will slow down and even self starters want clear direction + like to feel that someone is going to ask them about their work / performance -; that its importantt psychologically to evaluate people so they too can know how they are being perceived + that we all need "goals + timetables". We do definitely disagree on methodology for an operating officer - I'd get mad when we'd get on elevator + stop people wouldnt even bother to speak. Well I'd compare my feelings + behavior if I just happened to get on or be in presence of my superior man + I can't imagine not speaking or something - I'd also tell them it was important to go on different jobs + just work around

10/10/84

as so many people didn't seem to even know for whom they worked. I said this from day one + each time I was rebuffed + told to keep out as I didn't have the or a success record like his / I didn't know what I was talking about -

Strange that I should be going back in time but I guess all of these things no I know - ~~was~~ ~~asked~~ ~~the~~ ~~things~~ that are happening now as the manifestation of his basic resentment of me. It is growing, this resentment + has spread because somehow, some way I asked a question or made statement that Jerry + Howard told me once he didn't want them to talk with me + he said yes he told them that

How can he continue to  
think I am foolish enough  
to stay here forever or  
however long working a  
hard as anyone & he  
treated like I pts not for  
her to know - - -

let me stop as tears  
well up when I think  
of the puppet like role  
I am playing - - -  
God help me, please.
