

Jim Mersereau is an undergraduate research assistant with the Intermodal Freight Transportation Institute (IFTI) at the University of Memphis. He is currently a Senior with a focus on Transportation Engineering, and has been accepted to and started coursework in the Masters program of the University of Memphis' Civil Engineering Department. Prior to enrollment at the University of Memphis, Jim received Bachelors of Arts degrees in History and Political Science from Tulane University in 2007. From 2007 to 2010, he worked as an environmental consultant in Houston, Texas.

As a student at the University of Memphis, Jim has served as president of the American Society of Civil Engineers, captain of the American Society of Civil Engineers/American Institute of Steel Construction Steel Bridge Team, and participated in the Earthquake Engineering Research Institute's Seismic Design Competition. Additionally, Jim served as the Project Manager for the University's Institute of Transportation Engineers Data Collection Fund Grant 2012-2013.

Jim is a native of Bethesda, Maryland where he grew up sailing competitively, earning a position on Tulane University's team. Having moved inland, he has picked up running and has competed in a variety of long distance races across the country.
