Abstract: This sample abstract illustrates the format for preparing abstracts for Materials Day. The abstract should succinctly describe the results reported, as this is the only written record prepared for this meeting.

Authors must prepare their abstract for direct reproduction in the abstract book. Abstracts (**250 word limit**) should be single-spaced with type no smaller than 11 point. The title of the abstract should be in times 12 point, **bold type**, Upper and lower case, and centered on a line by itself. Leave one blank line under the title and on the next line, type the authors' names, centered, ***underlining the presenting author**. Leave one blank line and then begin the body of the abstract on the next line. **No figures**.

Abstract Deadline ~ Friday, September 21st, 2018

**Late submissions will be considered on a "space available" basis.*
