

Using Virtual EMS

The Cecil C. Humphreys School of Law now has access to the Virtual EMS tool to view events and request spaces through the web. This tool is available to all Memphis Law faculty, staff, and students. Requests made through this system will go to Ann Onidas (aonidas1@memphis.edu) for approval. The EMS calendar can be found using the link below, and also on the [On Legal Grounds Information Page](#) and on the bottom left side of the [Law School homepage](#).

EMS events that you want students to attend can and should be publicized via the Law School Students Master Calendar. To view the calendar, click [here](#), and make sure that only the Law School Students Calendar is selected.

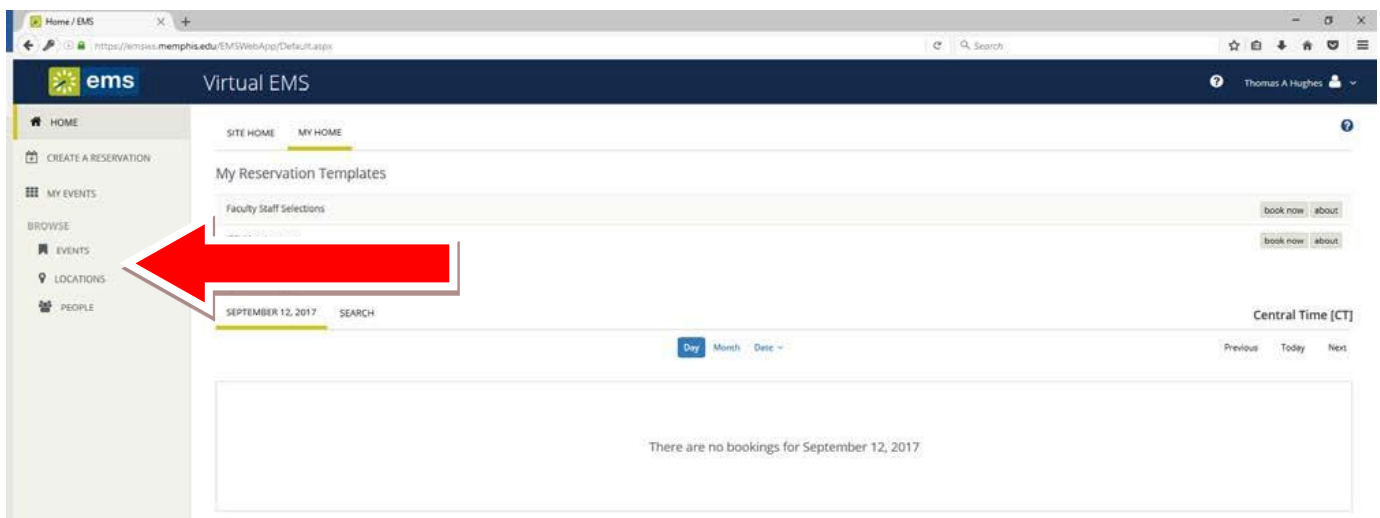

Logging In

Using your browser, go to <https://emsws.memphis.edu>, and enter your University of Memphis user ID and password on the login screen, and then click "Sign In".

Viewing the Calendar for Event Planning

1. Notice the menu items in the left pane. These each correspond to a different feature within the calendar.
 - Home – return to primary EMS menu screen
 - Create a Reservation – begin room reservation process
 - My Events – will display any reservations created by you
 - Cancellations and modifications can be made here
 - Events – displays all events scheduled for that day campus wide in list view
 - Locations – displays all events scheduled for that day in a grid display
 - People – provides a search query to find events by Client Name.
2. When selecting from the "Events" view, make sure to select "Add Filter" in the top right corner of the screen. From the drop down menu chose Locations, and then Downtown Law School Building.
3. When selecting from the "Locations" view, you must apply the filter by clicking "Add/Remove Locations," and then choosing Downtown Law School Building.

You can use either the "Events" or "Locations" view to search for an available room in the EMS system. Make sure the location filter is applied. If you want a list of events at the Law School, make sure to use the "Events" view. If you want events to appear in a grid format then use the "Locations" view. The "Locations" view is easier to search for an open room, because it is viewed as a grid and not a list.

HOW TO SCHEDULE AN EVENT USING THE VIRTUAL EMS WEB TOOL

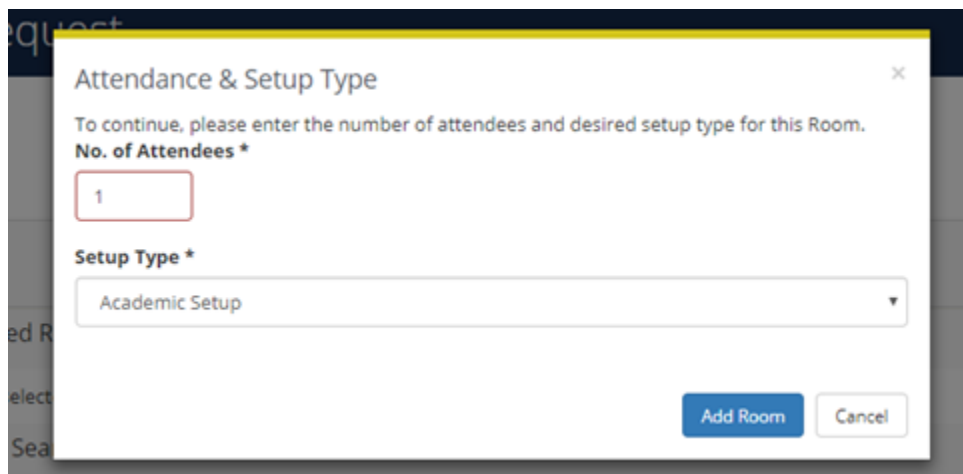

Virtual EMS (vEMS) is used to request event space at the University of Memphis School of Law by internal clients. It is accessible to all Memphis Law faculty, staff, and students.

1. Navigate to <https://emsws.memphis.edu>. **Note that vEMS is not compatible with Mozilla/Firefox.** Under the My Home tab, sign in with your Memphis username and password.
2. Click **Book Now** next to Law Students.
3. Start with the “Date & Time” section:
 - a. Under “Date,” click the calendar to select a single date for your event. Next, enter the event start and end time. **It is important that the actual start and end time is entered.** EMS will automatically include **at least one hour** for setup and teardown.
 - b. Next to “Locations,” click Add/Remove and select the "Downtown Law School Building." "Downton Law School Building" should appear as your selected location.

The screenshot displays the Virtual EMS web tool interface. On the left, the 'Date & Time' section includes a date field set to 'Sat 03/04/2017', a 'Recurrence' button, and time pickers for 'Start Time' (4:00 PM) and 'End Time' (5:00 PM). Below these is a dropdown for 'Create booking in this time zone' set to 'Central Time'. At the bottom of this section is an 'Add/Remove' button and a 'Search' button. On the right, the 'Locations' panel shows a search bar and a list of buildings: 'Select All Buildings', 'Community Health Building', 'Downtown Law School Building' (checked), 'Engineering Science Building', and 'Off Campus'. A large red arrow points to the 'Downtown Law School Building' checkbox. Below the list is a 'Selected Locations' section showing 'Downtown Law School Building' with a blue plus sign. At the bottom of the panel are 'Update Locations' and 'Close' buttons.

- c. You can now select your room, either by using the “Let Me Search for Room” options or by choosing “I Know What Room I Want” option.
 - i. For the “Let Me Search for Room” option, Follow the prompts and then click the “search” button. All your available rooms will show up for selection.
 - ii. For the “I Know What Room I Want” option simply type in the desired room, and select it from the drop down menu.
- d. For a single event date, you’ll see a **schedule** of available (and unavailable) rooms you can request. The event start and end time will be between two red lines. To get more information about a particular room, click on the room name in **blue lettering**. Select the room(s) that meets your setup/attendance requirements by clicking the blue plus (+) sign.

- e. After you select the plus sign, a popup box will appear asking you for information about the number of attendees and the set-up type. Each room has different options for Setup Type, but you should always pick “Existing Set.” Click “Add Room” to move to the next step.

- i. If you need a different setup, you should still select “Existing Set” and then contact Ann Onidas (aonidas1@memphis.edu) if you need a work order to move furniture. (Hint: you need a work order if the room needs to be rearranged at all).
4. Your choice(s) will move to the Selected Rooms portion toward the top of the page. Simply click the minus sign (-) to remove the room.
5. Once you have your selected room(s), click “Next Step” toward the top of the page to continue.

the event. Please be as detailed as possible in your email, and include the day, time, room, and any A/V needs.

- b. Inputting A/V services into the EMS system (on the Service for Your Reservation page) will not alert IT of your reservation, so please reach out to IT directly using the email above.
