5) Turn off the wireless presenter

Plug the mini USB receiver into the wireless presenter, and push the power switch to off position.

Chapter 3 Frequently Asked Questions

1) How to know the battery is out of power?

If the blue LED on the wireless presenter starts to flash slowly, it means the power is low and the battery needs to be replaced.

2) The laser pointer does not work, why?

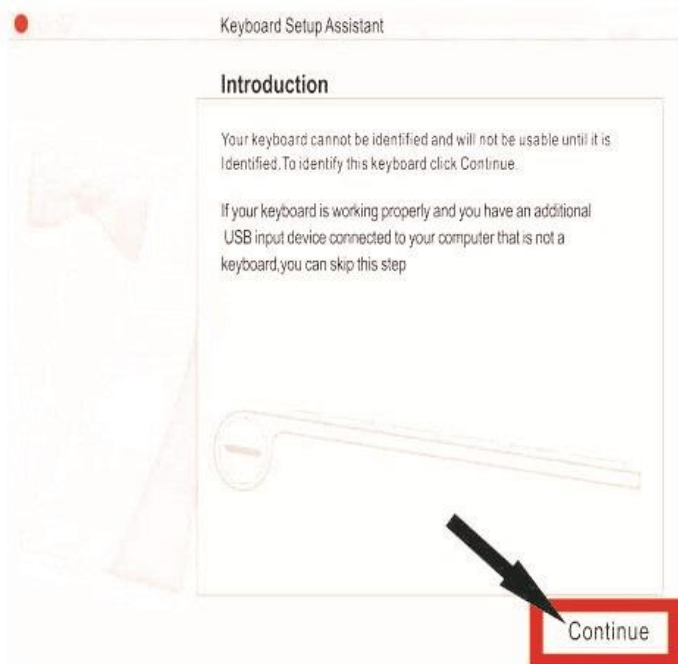

Firstly you need to turn on the power. Secondly you can check whether the wireless presenter is in low power or out of power. If the LED flash slowly, it means the power is low and the battery needs to be replaced. If all the other buttons can work, only the laser pointer cannot work, the laser diode may need replacement.

3) When the mini USB receiver plugs into the PC USB, the laptop does not detect the device, why?

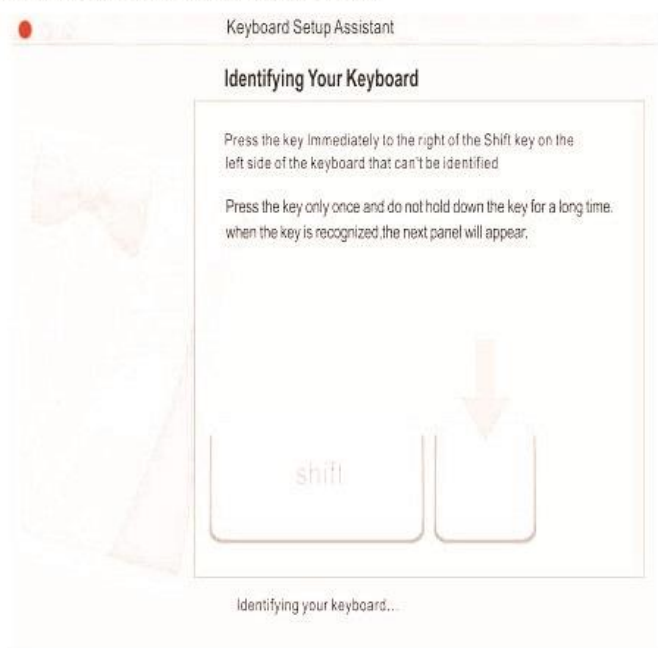

Please try another USB port or another PC.
