PROGRAMS

MONTESSORI, REGGIO-EMILIA
INSPIRED, UNIVERSAL PRE-K

We are the only lab school in the U.S. that has three early learning demonstrations in a constructivist learning environment.

The Lipman Early Learning & Research Center is a laboratory demonstration preschool program serving children ages two through five. Our program offers unique learning environments that nurture children to explore, think and create.

Our learning community embraces the child in social, emotional, cognitive, creative and physical development. Through ongoing observation and documentation of learning, children are supported to achieve developmentally appropriate life skills for future success.

OUR MISSION

The mission of University Schools is to provide the children of UofM staff, faculty and students, as well as community members with educational experiences that enhance their development from birth to graduation and promote dynamic research, collaborative partnerships and innovative practices.

FULL DAY
SUMMER
CAMP ALSO
AVAILABLE!

ENRICHMENT ACTIVITIES:

- Robotics
- Pottery

- Dance
- Music
