1. Briefly describe the rationale/motivation and overall objective for the project.
  
2. Provide a detailed list of numbered tasks required to complete the project objective(s) such that the Variable Credit Effort Expectations are met and the project objective(s) can be completed within an academic term. Each task should be clearly described and include an estimate of the total number of hours required to complete the task. The total number of hours among all tasks should equate to the Variable Credit Effort Expectations stated in the course Syllabus.
