**Raines to retire as president of the University of Memphis**

Shirley C. Raines, president of the University of Memphis, announced today that she will retire from the U of M effective June 30.

"It has been an honor and a privilege to serve the University of Memphis as president. These have been 12 of the most enjoyable, challenging and professionally fulfilling years of my life," Raines said. "The University has a strong foundation for the future, and I am confident in its academic and administrative leadership."

John Morgan, chancellor of the Tennessee Board of Regents, is expected to name an interim president this week.

"President Raines has made an indelible mark on the university and the entire Memphis community,

and she will be missed," Morgan said.

Raines became the University's 11th president and the first female president when she began the position on July 1, 2001. Previously, she was vice chancellor for academic services and dean of the College of Education at the University of Kentucky. She is the author of 14 books and numerous journal articles, and is widely regarded as an expert in teacher education and early childhood education. Raines is a frequent speaker at community events, as well as Harvard's Institute for Educational Management. For the past six years, she has been a keynote speaker for Harvard's Institute for Presidents and Chancellors. Raines has led the U of M through a period of phenomenal growth. Since her appointment as president, enrollment has grown to more than 22,000 students with the University awarding 4,033 degrees in 2012, the most in its history. ### **Arif Shakeel will receive Herff College's highest alumni award**

Arif Shakeel will be honored as this year's Outstanding Alumnus of the University of Memphis' Herff College of Engineering. Honorees receiving the College's Service Award are Tommy Carls, E. Hunter Harrison, John Ray Jr. and International Paper. The awards banquet will be Tuesday, April 16, at the Holiday Inn at the University of Memphis. The event will begin with a reception at 6:30 p.m. followed by dinner at 7 p.m. Tickets are \$35 for Alumni Association members, \$40 for non-members. Persons who want to sponsor a student at the dinner can purchase a student ticket for \$25. A silent auction at the event will raise funds for alumni chapter book scholarships for deserving engineering students.

Shakeel is a director of Western Digital Corporation and its former CEO. He earned his Bachelor of Science degree in mechanical engineering from the U of M in 1977 and his Master of Business Administration degree from Pepperdine University in 1981. He began his career with Western Digital in 1985. Before being named chief executive officer in 2005, he had served the company as product manager, vice president for materials-Asia, senior vice president for worldwide operations, executive vice president and chief operating officer.

### **Leading science journal published research led by Kimbrough Oller**

Research led by University of Memphis Professor Kimbrough Oller has been published in the *Proceedings of the National Academy of Sciences* (PNAS), one of the most prestigious scientific journals in the world. It appears in the publication's current online edition. The research deals with human infant sounds occurring by 3 months of age and with how evaluation of those sounds may reveal deep roots of human language, hinting at a very distant break from our primate relatives. The research was co-authored by Dr. Eugene Buder of the U of M along with former PhD students and colleagues at other institutions. The research was funded by the National Institutes of Health. Read more at <http://www.memphis.edu/mediaroom/releases/apr13/oller.htm>.

More information about Oller's research is available in volumes he has written and edited, such as

*The Emergence of the Speech Capacity* (Erlbaum, 2000), *The Evolution of Communication Systems* (MIT Press, 2004), *The Evolution of Communicative Flexibility* (MIT Press, 2008) and in his many articles (see website at <http://umwa.memphis.edu/fcv/viewprofile.php?uuiid=koller>).

## Green Tip

### **Register with local databases to find others interested in carpooling to work**

The Memphis and Shelby County Health Department Pollution Control maintains a database of individuals who work in the Memphis Urbanized Area Metropolitan Planning Organization Area and have expressed a desire to commute to work via carpool, vanpool, transit or bicycle. Visit <http://www.vride.com> to register.

Students, faculty and staff members can go green and save some green by carpooling. The U of M carpool channel is easy to use and conveniently located within the Spectrum portal. Instructions for using the U of M Carpool Channel: Log into the Spectrum Portal using your UUID and TigerLan/email password. After entering the portal, you will see the "Carpool Information" channel block in the right-hand column under the "Home" tab page. To register or edit a carpool listing: Click the "U of M Carpool Registration/Edit" link and complete the form. To view other listings: Click the "Current U of M Carpool Listings" link. ## Announcements

### **Celebrate the planet at U of M's Earth Day event on April 18**

University of Memphis students, faculty, staff and the Memphis community are invited to celebrate the planet at the University of Memphis Earth Day event Thursday, April 18, from 10 a.m. to 2 p.m. The festivities will take place at the TIGUrS Urban Garden, which is located adjacent to the Elma Roane Fieldhouse. The rain location for the "zero waste" event will be the Michael D. Rose Theatre lobby. Those attending the Earth Day celebration will have the chance to browse information tables featuring sustainability initiatives from on-and off-campus organizations. They also can get an "up close and personal" view of the TIGUrS Garden and participate in the planting of summer crops. There will be Zumba demonstrations, a farmer's market, live music from local artists and prize giveaways, including a bicycle and recycling bins. A butterfly release will take place at noon; anyone interested may release a butterfly. A free lunch will be served from 11:30 a.m. to 1 p.m. For more information about Earth Day, contact Karyl Buddington at [kbudding@memphis.edu](mailto:kbudding@memphis.edu) or 678-2359. Details of the U of M's sustainability efforts are available at [www.memphis.edu/bluegoesgreen](http://www.memphis.edu/bluegoesgreen).

### **CERI documentary recognized at 2013 national Telly Awards**

*New Madrid: The Earthquakes of 1811-12* won bronze for outstanding documentary at the national 2013 Telly Awards. The project was sponsored by the West Tennessee Seismic Safety Commission (WTSSC), the University of Memphis Center for Earthquake Research and Information (CERI), the Tennessee Emergency Management Agency and the U.S. Geological Survey. Kip Cole of Pale Moon Media, directed/produced the documentary and Gary Patterson of CERI was executive producer. Eric Bouchoc of AnimMan Studios completed the computer animation. Additional contributors were: U.S. Army Corps of Engineers, Arkansas Archaeological Survey, the University of Memphis Department of

Earth Sciences, Memphis Riverfront Development Commission, Central U.S. Earthquake Consortium, Reelfoot Lake State Park and Visitors Center, WKNO Public Television in Memphis, the New Madrid Museum (New Madrid MO) and Luther Bradfute. ### **U of M is named one of the 100 most affordable large public colleges in America**

The University of Memphis has been named one of the "most affordable large public colleges" in the United States by [www.affordablecollegesonline.org](http://www.affordablecollegesonline.org). The website, which provides prospective college students and their parents with information about affordable college options, financial aid and cost-saving ideas, gave that designation to only 100 "top quality large public colleges that have an affordable price tag." The website compiled the list from data published by the federal government and the Carnegie Foundation. Schools included on the list are public, non-profit, four-year colleges and universities; other criteria include the student enrollment of the college or university and its tuition (less than \$15,500 per year). The entire list of the designated schools is online at <http://www.affordablecollegesonline.org/campus-colleges/most-affordable-large-public-colleges>. More information about the U of M, including costs and financial aid, is available online at [www.memphis.edu](http://www.memphis.edu). ### **"Experience Counts" for adults who want to earn a college degree from the U of M**

At the University of Memphis, experience isn't just a good teacher; it's more like a professor. The U of M makes it easier for adult learners who want to start or finish earning a degree by allowing them to use previously earned college credit or college-credit-worthy experiences toward a diploma. This provides an affordable way to accelerate not only a student's education, but earnings potential as well. The U of M wants to help make that possible, by means of Experiential Learning Credit (ELC) and previous college credits toward a degree. Information sessions will be held in April and all sessions will run from 5 to 7 p.m. The session dates and locations are: April 16 in Memphis, main U of M campus, Michael D. Rose Theatre lobby; Thursday, April 18 in Jackson, Lambuth Campus, 705 Lambuth Blvd., Varnell-Jones Administration Building, Wisdom Parlor; Tuesday, April 23 in Collierville, Carrier Center, Room 116, 500 Winchester Blvd.; and Thursday, April 25 in Millington, Millington Center, room 132 A, B, and C, 6500 Navy Road. To register for any of these sessions, or for more information call 678-2716 or visit [www.memphis.edu/experiencecounts](http://www.memphis.edu/experiencecounts).

### **Volunteers needed for a study at the School of Communication Sciences and Disorders**

The School of Communication Sciences and Disorders is conducting a study on the human hearing system. The study explores a diagnostic test called otoacoustic emissions. This test has helped to revolutionize our understanding of how the human ear processes acoustic information. It is a test specific to the inner ear, or cochlea, considered the human organ of hearing. Investigators are looking for young adults 20 to 30 years old with normal hearing. Research participation supports the goals of the University and is the foundation for the development of diagnostic testing in many fields of study. For more information or to participate, contact 678-5832 or 848-7880.

### **2013 "Great Colleges to Work For" program surveys due April 15**

The University of Memphis is participating in *The Chronicle's* "Great Colleges to Work For" program, a study designed to gather benchmarking data within higher education and to recognize institutions that have built great workplaces. Survey participants were randomly selected. If you were selected and have not completed the survey, please take a moment and complete the survey today. A high response rate helps ensure accurate results and demonstrates the commitment of our workforce. The deadline to complete the survey is April 15. For more information, contact the Office of

Employee Relations and Engagement at [emprelations@memphis.edu](mailto:emprelations@memphis.edu), 678-3076 or 678-2603.

### **MemphisCRESH now accepting applications for summer program**

High school students interested in participating in the summer MemphisCRESH program (College Research Experience for Students in High School) should submit applications now. Applications for the 2013 program will continue to be accepted until all positions are filled. MemphisCRESH provides the opportunity for rising high school juniors and seniors to acquire first-hand experience of life as a scientist beyond a lecture hall setting. For more information, visit <http://www.memphis.edu/cresh>.
