The Association for Management Information Systems (AMIS)

WHO WE ARE

The Association for Management Information Systems (AMIS) is a registered student organization open to both graduate and undergraduate students interested in a career in information technology. The mission of AMIS is to introduce students into the IT profession and to provide students with opportunities that will enhance their educational and social development as an IT professional.

Throughout the year, AMIS hosts both professional events: (field trips, guest speakers, discussion panels) and social events (knowledge bowl contest, member appreciation parties etc.)
