

SYLLABUS—SPRING 2016

ELEMENTARY/BUSINESS CALCULUS MATH 1830-006
DUNN HALL 129, 2:40-4:05 pm, and MATH 1830-007, DUNN HALL
129, 5:30-6:55 pm, both TR, Prof. George Anastassiou.

Office hours: DH-200: 4:05-5:30 pm, TR.

Text: Calculus and its Applications, by Bittinger-Ellenbogen, 10th ed.,
Pearson-Addison Wesley.

Material we cover: Chapters 1-4.

Last day of classes: 4/26 Tues.

We give 3 midterm tests: 2/18, 3/17, 4/14.

Finals: 5/3: section 006: 1-3 pm, 5/5: section 007: 5:30-7:30 pm.

No make ups, only with full documentation and in advance notified.
Each midterm has 20 questions maximum 100 points. The final has 30
questions maximum 200 points. So total maximum 500 points.
The average score (av) $[(4 \text{ tests} + \text{final})/5]$ will give final grade:
If av below 50 then get F, av between 50 to 59 D, av between 60 to 69 C,
av between 70 to 79 B, av above 80 A.

Homework all exercises per section we cover. No quizzes. Multiple choice
tests+ final from a test bank.

Bring the big blue scantron, pencil no.2,

Formula sheets (2), non-symbolic scientific calculator.

Visit Math. Learning center DH143-open all day. Ask questions always.

Come to class.

Good Luck!
