

Math 2422 Fall 2016 Syllabus

Time/Place: TR 11:20 - 12:45 am, W 11:30 - 12:25, DH 109.

Note that the time is different for Wednesdays.

Instructor: J. Campbell, DH 213

e-mail: jtcdyn@gmail.com, or jcampbll@memphis.edu **ph:** 678-2493

In general, it's easier to reach me by e-mail.

Office Hours: T 10-11 am, W 9:30 - 11 am, and by appointment. Please, if you need to see me, do not hesitate to make an appointment. I understand that not all schedules align with mine.

Text: *Calculus, 8th edition*, by Stewart. It is the same book used by the non-honors Calc III sections. Our goal is to cover chapters 12-16.

Grading: Homework will be assigned daily, but not collected. **Homework is for the benefit of the student.**

Instead of collecting the homework, **quizzes** will be given randomly, about 1 per week (some weeks 2, some weeks none). The quizzes will be based upon recent homework assignments. They last about 10 minutes.

The lowest **2** quiz grades will be dropped, the rest averaged to count as 15% of your grade.

3 in-class **exams**, each worth 20% of your total grade.

1 Final Exam, 20% of your grade.

Class Participation: The remaining 5% of your grade will be based upon class participation. This is a subjective evaluation on my part. Being engaged in the daily lesson is important.

Grade Ranges: A: 88-100%

B: 78-87%

C: 67-77%

D: 57-66% .

I use plus/minus grading, top two/bottom two points in each scale, except no D- (it doesn't exist in the system).

Final Exam: Monday Dec. 5, 10:30 a.m. - 12:30 pm, DH 109. The final is mandatory.
