

Nursing students are required throughout the BSN program to meet core performance standards, be current in essential vaccinations, and maintain certifications and liability insurance to protect themselves, clients in their care, and meet clinical site requirements. These data are critically important to our accreditation.

It is essential that you submit all *Required Nursing Data* by the published deadline to ensure enrollment in the BSN program; failure to submit documents by the published deadline will nullify your acceptance to the program, requiring reapplication for the next admission cycle.
