

How to Create a New Webpage

To create a webpage that's linked from a Microsite's nested navigation:

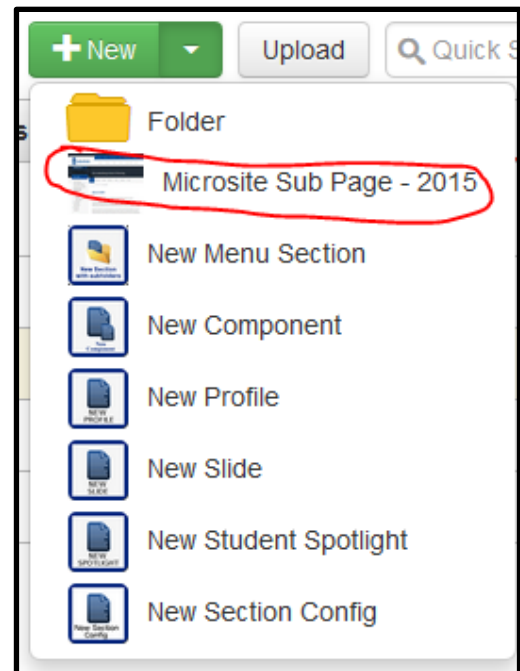

1. Make sure you are within the folder of the microsite. Not in the root of the site.

How to Create a New Webpage

2. Select New Button. Then select Microsite Sub Page – 2015.

3. Complete Form and select Create.

Microsite New Page - 2015

Page Title

Give your page a title.

Main Content

Path:

Populate the main section with some initial content.

New Page Options

Filename

Provide a filename for this new page. Use only letters, numbers and underscores.
